I. RATIONALE

As mandated by the Commission on Higher Education, the Capiz State University responded to the call for social transformation (RA 7722) through its extension program. The aim is to serve the poorest of the poor, the less privileged, the deprived and the oppressed through livelihood skills training, values formation, and the like.

The Bachelor of Industrial Technology of CapSU Main extension program promote faculty-community based totally extension activity in terms of Art education and Art appreciation and the way it wished to penetrate more barangays and public elementary school within the City of Roxas and the Province of Capiz, it can't because lack of information dissemination, awareness campaign and livelihood skills training which offers impact to the community.

In answer to this problem, Drafting Technology of BIT program formulated the theme refers to “**Industrial Technology – Mobile Art School” (IT-MAS)** under the banner of Industrial Technology Extension program **BEST** (Building Employability and Sustainability through Technology) and anchored with the University Extension Program **SKAI** (Serbisyo sa Kumonidad Aton Ihatag). The project is supposed to equip with the integration of values formation, marketing strategy, art education and art appreciation. The participants of this livelihood skills training were out-of-school youth, public elementary pupils and secondary students having without much knowledge/understanding in art education and t-shirt printing as well as one of the primarily goal of Industrial Technology extension program to extend within the City of Roxas.

The equipment to be furnished had been decided with the support of the Trainer's of CapSU. The fund may be launched to the proponent, the Local Government Unit of the Barangay and the School Principal or Head who will adopt and put in implementation the livelihood project. This is likewise one manner of encouraging, promote social transformation, providing livelihood abilities and to take part within the community services.

II. OBJECTIVES OF THE STUDY:

1. To conduct livelihood skills training in Basic Art workshop with the integration of values formation within the City of Roxas.

2. To evaluate and monitor livelihood skills training in Basic Art workshop with the integration of values formation within the City of Roxas.

III. PROJECT DESCRIPTION:

Anchored to the University Extension program, “Serbisyo sa Kumunidad Aton Ihatag” **SKAI** in connection with the BIT extension program **BEST** (Building Employability and Sustainability through Technology), an offshoot from the collaborative efforts among CAPSU Main extension service, faculty and students.

The program provides widespread information dissemination to all concern on the availability of consultant and technicians for consultancy and services.

The department committed a poll of experts and staff to provide assistance and consultancy services to facilitate the implementation of the identified programs, projects and other activities directed to the communities. This program has been designed to sustain the community extension services of the industrial technology program.

SUSTAINABILITY

The cooperation and collaboration of LGU, Sangguniang Kabataan, Government owned Elementary and Secondary school of and the continuous help of CapSU is important management that makes the extension program sustainable. The competence of the faculty involvement as trainer and the deliberation of the facts dissemination is one of the key aspect within the achievement of the program. The BIT extension project mainly the competencies training in Basic Arts Workshop will retain to set up and promote the Arts and Trades of former Capiz Institute of Technology (CIT) which turn out to be widely recognized in competency and creativity inside the province and location with the information of faculty in terms of Arts and different capabilities of their respective important area of specialization. Thus, it offers have an effect on that the impacts of this extension activity could be the end result of individual increase and improvement and socio-monetary popularity of our society. Some engaged in part time job in T-shirt Printing and others are doing their business at home as package for deliverable. Others beneficiary of the said activity are pupils/students engaged in Art exhibit and won in local and regional poster making Art competition and they also wanted to enroll in Arts Courses like Drafting & Architecture.

PARTNERSHIP

The strong collaboration of CapSU Main Extension Office, the Admin and the LGU Barangay Key Officials, Sangguniang Kabataan, Elementary & Secondary teachers will always associate to change social transformation, offering livelihood abilities and to take part within the system of teaching and learning process.

V. LESSONS LEARNED

The livelihood skills training introduced with the aid of the intervention of BIT extension program within the said community complements their perspective in the direction of the basic learning and come to be their outlet for education and improvement as well as employability which introduced the effect and changes of their lives.

The training program resulted to a large implication to the trainees/individuals which introduced enthusiasm, self-direction, motivation and encouragement that cause them to grow to be constructive to the following possibility they'll stumble upon.

It is not simplest the primary techniques or methods they discovered rather its produce values inculcated upon the training began and after the training became ended. The deliberation of understanding from the professional offers them strong implication now not to surrender whenever warfare faced on their manner.

The gain of getting this type of extension program to the community will assist beautify the hobby of different members or group of people and to disseminate that information to different aspect of the community or barangay.

VI. RECOMMENDATIONS

1. Venturing other desires to develop skills in Basic Art or Pursuing to character building learned within the field of Art that gives challenge within the community. Associate also or get involve with some local Arts Group within the City of Roxas and Province of Capiz.
2. The BIT extension program support the vision, mission and goals of the college that their may be a continuous support for the improvement of oneself and to assist, reach out least privilege individual in the community.
3. Conduct other livelihood skills training along with (Automotive Servicing, Beauty Care, Dressmaking, Electrical/Electronics, Food Technology, and many others.)
4. Engaged in local Art show and Competition especially in the celebration of Arts Month facilitated by Provincial Tourism Cultural Affairs Office or (PTCAO) and Ang Panublion Museum for Art exhibit and display.
5. Continue tracking the challenge meet in the Arts and Culture industry.
