(1) Extension Program/ Project Title: Alternative Learning for selected educationally challenge parents of DYDRMS, (ALSERP)	
Proponent Name:	Dr. Michael B. Angelias, Prof. Hardy John Mendoza Dr. Grazl T. Baria, Dr. Jocelyn A. Magoncia Dr. Dorren D. Ata-al Dr. Mary Gene I. Panes Dr. Jocelyn A. Iturralde Prof. Juliene P. Delino
Academic Rank:	Asso. Prof I-V to Asst. I
Co-Authors (with academic rank):	
Campus/Satellite College/Address:	Dayao
Telephone/Cell Phone/Fax Number:	
E-mail Address:	

(2) Category (please check) ☒ Education and Humanities ☐ Agriculture/Fisheries/Livelihood ☐ Health/Environment ☐ Engineering and Technology
(4) Background (WHAT, WHERE is the proposed project, WHO will benefit, what PRODUCT/SERVICE will address the identified needs/resources. Introduce the product/service that will address the identified needs and resources (general statement). Introduce the target group, organization/community to be served, and the project beneficiaries briefly. Include related literature consistent with the subject – to make the proposal scholarly)

Due to the prevailing problem of the country which is poverty, a substantial number of students do not make the transition from elementary school to high school. The Department of Education (DepEd) data shows that for every 100 children who enter Grade 1, close to 15 do not make it into Grade 2, and roughly one-quarter or 24 percent have dropped out before Grade 4 (Luz, 2007). Meanwhile, on December 2013, the NSO Census of Population and Housing (CPH) shows that out of the 71.5 million individuals who are 10 years old and above, 97.5 percent or 69.8 million are literate or could read and write (Selangan, 2015).

Under-investment in children is an identified problem in low-income developing country, both parents tend to work harder to earn money for them to meet the needs of the family (Evangelista, 2008; Ochoa & Torre, n.d.)

In Monteflor (2006) study, parent interview and survey questionnaires in Cebu, Philippines is use to determine some over-weighting of parents on the academic achievement It recommends that longitudinal studies on parent–child developmental strategies should be done to help learn more about early childhood education (Parental involvement in the Philippines: A review of literatures December 2017).

As teacher education, the Department of Education, Dayao Satellite College would provide intervention to selected parents who are not capable in teaching their pupils along the 3RS of learning. By this, we may able to provide them tools to guide their pupils who may not have the access of asking their elementary teachers when not in school, or may have ask the help of other people when they cannot understand the content of the module and answer the class activity of their children.

(5) RATIONALE (WHY should the project be implemented? **WHAT need** is the project trying to address? – how the problem is affecting the targeted beneficiaries, previous efforts done and status, any legal bases and related literature supporting the proposed project, link the relevance of the project to development priorities like mandate and development goals, the comparative advantage to handle the project, and **WHY** act now and not later)

Often in the literature, studies of parental involvement are focused on involvement at home (home-based involvement, meaning parents' behavior towards school life and practicing activities related to school learning with their children at home, such as parents helping their children with homework, parents discussing schooling with their children, parental monitoring of school tasks and rule-setting), involvement with the school (school-based involvement related to parents' Various forms of participation in the schools' activities).
<https://www.mdpi.com/2227-7102/11/6/302/htm>).

The number one item on Math is about Algebra. I don't know how will I teach my son.) To help her children, Junio said that she would call them from work to answer their questions (<https://www.rappler.com/nation/parents>).

These are challenges faced by parents who has no direct or less time in guiding their children with the new normal mode of learning due to COVID 19 pandemic. Much more to parents that are *educationally challenge* or were not able to finish their elementary education or high school education during their time.

Even the implementation of the DepEd limited face to face classes for school year 2022, yet the parents identified as educationally challenge need intervention to help their pupils cope up with their assignment when at home.

As teacher education, the Department of Education of Dayao Satellite College would provide intervention to selected parents who are not capable in teaching their pupils along the 3RS of learning. By this, we may able to provide them tools to guide their pupils who may not have the access of asking their elementary teachers when not in school, or may have ask the help of other people when they cannot understand the content of the module and answer the class activity of their children.

Educational challenge means a challenge that is no less than the minimum level of rigour and difficulty reasonably expected of the higher education course, in the context of the subject matter and level of the course (www.lawinsider.com/dictionary/educational-challenge).

(6) GOALS AND OBJECTIVES (what do you **WANT TO ACHIEVE**? This presents what the proponent hopes to accomplish through the project and what can address the cause of the core problem. Captures changes in people's lives at the societal level – the **IMPACT**. The **BIG PICTURE**.)

1. Teach the basics of education.
2. Learn the content of the module/schools assignments given to their pupil(s)
3. Apply the learned lessons.
4. Evaluation/assessment of learning absorb by the beneficiaries.

(7) PROJECT DESCRIPTION (what are the **features** of the project process/tools used in the project ID, location, duration, beneficiaries, results chain/framework, project cycle – [*needs/gaps identified, set of solutions noted to address the needs*])

The ALSERP is a tool in reaching the gap of parents' involvement to their learner's education. Parents who has face challenges in helping their children to read and write but does not have the capability due to lack of education. The inability of counting numbers due to poor comprehension when it comes to numeracy. The identification of this parents will mean a lot to engage in teaching their pupils when capacitated by the program, assessment of their cognitive, affective and psychomotor condition will provide enrichment plan to address their challenges.

The Teacher Education may equip the parents for hands on involvement of their pupils education and elevate their moral in meeting the assignment and school works of their pupils.

(8) PROJECT IMPLEMENTATION AND Monitoring & Evaluation SYSTEM (how will the project be implemented, how will the project be tested if it is working, when - detailed activities to be undertaken by component to generate the outputs, support the description of activities through a matrix or work plan identifying how each activity will be delivered, who will be responsible for WHAT, WHEN, WHERE – state your Activities, Work Plan - Project Schedule supported with a Gantt chart, Project Management [proponent, partners and their roles and responsibilities including counter parting scheme, if any, capacity to handle the project, and accompany with the simple management structure. Provide theoretical background and apply it to the project. Describe how the project will be monitored and evaluated during the planning/pre-implementation, implementation, and operation/post-implementation phases. M&E framework must be accompanied by a **DATA Collection Plan**)

PROCESSES	APPLICATIONS	EXPECTED OUTPUT
1.Opening of training	Formal opening of training	Launching of training
2.Teach the basics of education.	Giving of exercises	Able to absorb the basics of education (3RS)
3.Learning the module content	Exercises	Application of learning from the module.
4. Evaluation of learners	Give assessment exercises to determine the level of learning	Able to achieve at least 85% learning transfer by the beneficiaries.
5.Assessment result will be the basis of another learning sessions for the next schedule of alternative learning	Apply the remedial lessons for the unmastered lessons	Able to master the lessons remedied.

Day 1	ACTIVITY/TOPIC	PERSONS INVOLVED
7:30-8:00	Registration	Education staff
8:00-8:30	Opening Program	Program in charge
9:00 AM-5:00 PM	Lecture & exercise	Resource Persons & participants
Day 2		
8:00-8:10	Morning Energizer/Recap	Program in charge
8:30-5:00 PM	Continuation of learning	Resource Persons & Participants
Day 3	Application of gadget for online class	Resource Persons & Participants
4:00 PM	Closing program	Program in charge

(9.) SUSTAINABILITY PLAN (All projects have limited time durations. Can the project be supported after its project life? How will the organization sustain the project in terms of dedicated staff? How will the beneficiaries continue to carry out the activities after the project? Is there any financial support required for the project after the project has ended?)

After the implementation of alternative learning (ALSERP), an assessment of what they have learned and the skills in 3Rs will be evaluated by the faculty of Education. The written and skills area will be measured to find out the progress of their learning.

Additional learning continuity will be given for the participants when needed, and reinforce the program until the participants will master the area of learning.

(10.) RESOURCE REQUIREMENTS - (a. **Direct Costs** – (Implementing team – manpower (who – names and positions, how many?, Facilities and Equipment needed, Supplies and Materials, Travel, Hauling, Etc) b. **Indirect costs** (rental, electricity, administrative cost 5% to 15%) c. Contingencies (price increases, unforeseen and emergency expenses) 5% of the direct cost, **Budget**)

BUDGETARY REQUIREMENTS:

DESCRIPTION	QUANTITY	UNIT PRICE	TOTAL PRICE
Food w/snacks	27 persons X 3 Days	250.00/pack	20,250.00
Printer ink	4 bottles	200.00 each	800.00
Coupon bond (Long/short)	2 reams	190.00	380.00
TOTAL			21,430.00

(11) Executive Summary (A significant part of the proposal. Summarize the project so that readers can rapidly become acquainted with the problem, background information, implementation scheme, and resource requirements. Intended as an aid to decision-making since it covers all sections, but do not copy and paste and write in the same order as the main document.)

The participants' challenges resulted to lack of parental involvement in their pupils learning struggle in doing homework, activities etc. may address the gap. Pupils school performance in academic and nonacademic will be elevated if the parents knows what to teach and how they assist their pupils.

Equipping the parents through ALSERP program may mitigate the burden of pupils learning struggle when not in school when their parents has the capability to teach them.

The concept of DepEd Alternative Learning System (ALS) is a replication of the program to augment also the elementary teachers that the parents (cliente) involvement will strengthen the school's idea in partnering the parents learning with parents' involvement and not only entrust and rely on what the school will provide.

Learning continuity after assessment of the program will be conducted to ensure mastery of the 3Rs, learning skills based from the objectives will be the basis if the program is a success.
