

COMPUTER STUDIES EXTENSION OFFICE

I. BASIC INFORMATION

Title of Project: Project **e-SUPPORT**: Electronic Support Undertakings of Public and Private Offices Reports and Transactions

Sponsor/Funding Agency: CAPSU Dayao Satellite College Extension Office
Proponents/Training Staff: Professor Zandro A. Amanguiton
Professor Rio L. Vergabera
Professor Marevic P. Nava
Professor Charles B. Almonguera Jr.
Professor Rodel P. Balingit
John Mark B. Anoché
Jessa Mae G. Begas

Date: whole year round
Venue: Government and Private Business Offices
Participants: Personnel/Office Staff
Source of Fund: Extension STF/GAA, partner agency
Budgetary Requirement: P 16,500.00

II. RATIONALE:

The challenges encountered by personnel/office staff both in the government and private organizations are the preparation/processes of business report templates and transactions. Both government agencies and private sector organizations are experiencing various challenges in dealing with bureaucratic processes, regulatory requirements, and administrative procedures. Here's an overview of some key themes and findings from the literature:

Inadequate Infrastructure and Technology:

- Outdated infrastructure and limited use of technology exacerbate challenges in government and private sector transactions. Manual processes, paper-based documentation, and insufficient IT systems hinder efficiency and data management (Dela Cruz, 2017).

Capacitate and Training Needs of personnel/staff:

- Capacity gaps among government personnel and private sector staff contribute to transactional problems. Insufficient training, skills mismatch, and lack of expertise in regulatory matters impede effective service delivery and compliance (World Bank, 2019).

Document Standardization for Electronic Government/Private Sector Applications

- There is a lack of common field standardization and adherence to common definitions, due to the still non-electronic nature of many public sector services (2008, Yannis Charalabidis et. al.)

In conclusion, the review of literature on government and private business reports and transaction problems in the Philippines underscores the multifaceted nature of challenges faced by organizations and individuals. Addressing these issues requires comprehensive reforms in governance, regulatory frameworks, administrative processes, and institutional capacity-building efforts.

III. OBJECTIVES:

1. To design and develop a training module that targets a specific topic or skill.
2. To capacitate office staff/personnel in the use of appropriate software application tools and platform technologies used in their organization (or government agency concern).
3. To train and assist personnel/office staff develop standardized electronic templates (e-templates) of report and transaction documents that are officially recognized and approved by the organization (or government agency concern).
4. To evaluate/assess the skills learned by the targeted stakeholders.
5. To evaluate the empirical validity of the training module.

IV. METHODOLOGY:

A training module will be developed to enable stakeholders to acquire targeted computing skills appropriate to their job tasks. Expert judgment is elicited to ensure content validity in developing the training module that will be used as a learning material to conduct training for the targeted stakeholders. The developed training module will demonstrate the use of various software, hardware, and technology platforms necessary for their specific office needs. The Department of Computer Science Faculty, in partnership with the different public/private entities identified, will administer the training. A quasi-experiment (with a group of control design) with pre-test and post-test measures is to be conducted to evaluate the empirical validity of the training module.

Below is the proposed training activity:

PROCESSES	APPLICATIONS	EXPECTED OUTPUT
1. Pre-Test assessment of the Digital Literacy of	Target beneficiaries will answer the Digital Literacy Assessment (Pre-Test)	Able to determine the level of digital literacy

beneficiaries (prior to the actual training)		
2. Opening of training	The formal opening of training	Launching of training
3. Educate the use of appropriate software applications and technology	Demonstration and application of exercises	Able to absorb the demonstrated exercises
4. Develop e-templates of various reports and transactions	Construct e-templates in appropriate applications	Make e-templates of reports and transactions
5. Evaluation of trainees	Give assessment exercises to determine the level of learning	Able to achieve at least 90% learning transfer by the beneficiaries.
6. Post-test assessment results will be the basis of other learning sessions for the next schedule of alternative learning	Target beneficiaries will answer the Digital Literacy Assessment (Post-Test)	Able to master the exercises remedied.

Day 1	ACTIVITY/TOPIC	PERSONS INVOLVED
7:30-8:00	Registration	Computer Studies/Extension staff
8:00-8:30	Opening Program	Program in charge
9:00 AM-5:00 PM	Lecture & Exercise	Resource Persons and participants
Day 2		
8:00-8:10	Morning Energizer/Recap	Program in charge
8:30-5:00 PM	Continuation of learning	Resource Persons & Participants
Day 3		
8:30 – 12:00	Presentation of Output Exercises/Templates	Resource Persons & Participants
1:00- 4:00 PM	Presentation of Output Exercises/Templates	Resource Persons & Participants
4:01 – 4:30	Closing program	Program in charge

V. RESOURCE REQUIREMENTS:

1. Training Management Team
2. Resource Person/s

VI. TOOLS/EQUIPMENT:

1. Software applications (e.g. Office Productivity Suite, etc.)
2. Notebook/ballpen
3. Whiteboard and pen
4. Cellphone/Laptop

5. Printers

VII. Timeline (Year 2024)

Activities	Jan	Feb	Mar	Apr	May	June	July	Aug	Sep	Oct	Nov	Dec
Proposal												
Training Module Construction												
Pre/Post-Tests Assessment Construction												
Trainings to target stakeholders												
Collection of Data (Pre/Post-Test Assessments)												
Statistical Evaluation of Data												
Documentation												
Presentation/Publication of Results												

**** Subject for Review**
