

(PROJECT HULAS)
**Health Unlimited for longer Life and Agility of Seniors: Extension Activity for Senior
Citizens of Burias, Mambusao, Capiz**

CAPIZ STATE UNIVERSITY
BURIAS CAMPUS
BURIAS, MAMBUSAO, CAPIZ

RATIONALE

The Capiz State University, as a higher institution, plays a vital role in rural development. It has been a partner of the different municipalities in the Province of Capiz in organizing cooperatives, communities, and projects. It has also been instrumental in seeking recognition and funding for these organizations from various funding institutions.

As the global population ages due to increased life expectancy and declining birth rates, the number of senior citizens is on the rise. This demographic shift presents both opportunities and challenges for societies. On one hand, seniors offer a wealth of experience and can continue to contribute to their communities, families, and economies. On the other hand, this aging population may face various health and social issues, including age-related health conditions. In Mambusao Capiz, a third-class municipality in the Province of Capiz, the aging population presents a compelling imperative to address the well-being and quality of life of senior citizens, specifically in the Brgy. Burias, Mambusao, Capiz.

In order to serve and improve community life, the College of Education Extension Department of Capiz State University Burias Campus, together with the Bachelor of Physical Education, offers a wide variety of extension programs and services. These are designed to help and encourage senior citizens to have an internal locus of power to live a healthy lifestyle, especially through physical activities.

The CAPSU Burias College of Education, BPED Department, conducts a needs assessment analysis in order to identify what assistance and support they can offer to the stakeholders in Barangay Burias.

OBJECTIVES OF THE PROJECT

1. Improve cardiovascular health;
2. Enhance skills in basic first aid;
3. Increase awareness about the prevalence and impact of common lifestyle disease; and
4. Strengthen social interactions among the senior citizens.

The College of Education BPED Department and the Barangay Burias plan out their extension activities after conducting the needs analysis.

PROJECT DESCRIPTION

Prior to the conceptualization of the project, on October 24, 2022 the Barangay Chairman asked the assistance of Capiz State University-Burias Campus to extend its help by utilizing the expertise of its faculty. They requested the Campus to conduct trainings on Health and Wellness among Senior Citizens of Barangay Burias so as to improve health conditions and promote good relationship among their constituents.

Having expressed the needs of the officials of Barangay Burias headed by Hon. Rosalia F. Loja and Senior Citizens Association Burias Chapter. CAPSU Burias then requested the expertise of the College of Education since it offers degrees such as Bachelor of Physical Education. They immediately heed the call for help.

As a response to the needs of the Barangay Officials of Burias and Senior Citizens Association Burias Chapter, the Help through Zumba Exercise that could help maintain the health conditions of the target beneficiaries was conceptualized. One of the major components of the said project is to improve the cardio vascular health among Senior Citizens of Barangay Burias. In order to achieve this, the faculty and staff of the College conducted the **‘Training on Health and wellness among Senior Citizens of Barangay Burias’** which was participated by the officers and members of Senior Citizen Association Burias Chapter.

During the conduct of the training program, the following topics were discussed thoroughly by the faculty of the College: “Nutrition and Exercises”; “Promoting Wellness through Light Cardio Exercises”; and “The effect of Zumba and Aerobics Exercises to the Body”.

In order to monitor the sustainability of the said program and to find out if the knowledge and skills transfer to the recipients are put into practice, the BPED Extension Coordinator of the College of Education conducts quarterly monitoring by attending the Barangay Officials and Association’ regular meeting. Moreover, a sustainability plan was created.

RESULTS OF THE INTERVENTION

To find out if the conduct of the “Training on Health and wellness among Senior Citizens of Barangay Burias” has derived positive effects. The following are the observed results:

1. Improved Cardio vascular health among the officers and members of the Senior Citizens Association Burias Chapter.
2. With the assistance of College of Education BPED Department of CAPSU Burias Campus, the officers and members of the associations were:
 - Enhanced Knowledge of Nutrition and Exercises
 - Enhanced Knowledge on wellness through light cardio Exercises
 - Enhanced knowledge on the effect of Zumba and Aerobics Exercises to the Body
 - Strengthened social interactions among the senior citizens.
3. The association organized a Zumba dance activity held every Monday Wednesday and Friday, 4:00 to 5:00 in the afternoon.

LESSONS LEARNED

1. Capiz State University-Burias Campus, being an institution of higher learning, plays a significant role in promoting human development in its immediate community.
2. Officers and members of the Senior Citizens association Burias Chapter, when given the chance to be more knowledgeable in terms of Health and wellness, can be more empowered and more driven in the portrayals of their roles and responsibilities in the community.
3. What goes around, comes around. What the Institution has provided to Burias is unconditionally paid back by the association and has become more supportive to the activity of CAPSU and vice versa, thus creating a mutual exchange of resources and assistance.

RECOMMENDATIONS

1. Since the College of Education of CAPSU Burias has drawn out positive results from the first component of the project, the College is now ready to extend the project to other barangays in the Municipality of Mambusao. Thus, the support and cooperation of the of the mentioned municipality as well as the officials from other barangays should be solicited prior to widening its scope.
2. Constant monitoring by the College should be conducted to ensure the sustainability of the project.
3. The initiators of the extension project should invite motivational speakers to further guide and to inspire the members of the association in providing better community service.
4. CAPSU should continuously assists the association to strengthen its capabilities and resources which in turn may be made into cooperative.
