

I. TITLE: Project SPACE (Solo Parents Acknowledgement, Capacity-building, and Empowerment)

By: Dr. J.K. Ada, Dr. H. Casa, Dr. P.R. Batacandolo, and Mr. J.E. Bangud

II. BACKGROUND:

The Philippines is considered one of the developing countries in the world (International Monetary Fund's World Economic Outlook Database, October 2018). This presumes that the government and the people still have a lot of things to be made especially on the economy and social welfare, in uplifting the lives of those individuals who belong to the vulnerable and marginalized group.

To minimize the concerns among these groups, especially on the social aspect, the Philippine Government has made ways to easily address the concerns, not just by providing laws that will capacitate and protect them, but also by establishing offices that will implement these laws, that will focus on their needs. Most of the Local Government Units have provided offices for senior citizens and persons with disabilities with focal persons that will handle or represent the whole group on their behalf. There is a structure existing, a tangible one since there is a head and members. They are established - which means easier for them to be recognized by the Government. Easy to be recognized means better access to opportunities. But unlike these two, there is this group that is less represented and less organized, and they are "the Solo Parents".

Though there is an existing provision under the R.A. 8972 or the Solo Parent's Social Welfare Act, the implementation of this act in the Province of Capiz is not well implemented as stated in the research study of Dr. Pet Roana C. Batacandolo re: *Effectiveness of the Comprehensive Package of Social Development and Welfare Services for Solo Parents in the Province of Capiz dated 2019*. The result of the study shows that Solo Parents are only slightly aware of the government programs and welfare services, and were not satisfied with them. And that it needs to intensify the information-dissemination and implementation of this act.

Thus, this project aims to help create a better space for our Solo Parents in this society. The project aims to make the first move in focusing on and gathering indigent solo parents, capacitate them through seminars on RA 8972, strengthen their psychosocial and emotional aspects through lectures and orientations, and conduct skills-training activities that will help enhance their financial needs and an empowered person in general. The project will first be implemented in the municipality of Pontevedra in partnership with the LGU specifically the Office of the MSWD.

III. RATIONALE:

Single parents are known to be hard-working and selfless. Trying to give a better life for their child or children, they do double work or sideline which sometimes results in over-fatigue on their part. Fatigue doesn't only affect one's physical presence, but more so attacks inside – emotion and mental aspects especially if the person is these facing problems solely. It makes people miserable. It makes them unproductive, may it be on a personal concern or work-related task. It imbalances the social facets of a person which results in the inability of a person to handle a relationship or deal with his/her colleagues. It affects the mental capacity of a person to think and develop correct judgment. It also affects the family as the person doesn't have enough time to bond with them which causes to create a family problem, especially with his/her child or children.

As we put this in the context of this project advocacy, Solo Parents experience much more suffering when they face problems and experience fatigue in their lives for most of the time, they face

these problems alone and unheard. The burden they are carrying within themselves is heavier than a person could ever imagine.

The study of Hashim, et al., (2015), W. Jiumpanyarach (2011), and Kotwal & Prabhakar (2009) on the stressors of a single parent supports the abovementioned statement and states that aside from financial problems, they also faced social and emotional problems.

Further, as mentioned in the study of Dr. Batacandolo, the main problem our solo parents are now experiencing is the unawareness of the benefits and privileges they should have been enjoying under the R.A. 8972 or the Solo Parent's Social Welfare Act. According to Dr. Batacandolo (2019), "Results showed that the unawareness of the existence of benefits for them is the major problem encountered by the respondents, this ranked first among the problems identified."

The project intends to answer the problems and concerns holistically, pushing all the efforts to fill in and give solutions to the problems stated from the result of Dr. Batacandolo's Research Study and Training Needs Assessment. The project implementers believe that the success of this project will provide a better space for the beneficiaries in this community but will always depend on the commitment of the project implementers themselves, the active participation of the beneficiaries, and the valuable assistance and support of these institutions, the CapSU Pontevedra – Extension Department and LGU Pontevedra can and will provide. The university and its faculty members have the workforce, experts, and skills that can be utilized to contribute to this project. While the LGU Pontevedra has the data of these target beneficiaries, enough resources, and authority that are much needed to materialize this project.

The project implementers believe that Project SPACE is a must and should be implemented right away because of the significance it can offer to the society especially to this target vulnerable sector, the Solo Parents. It is very timely and relevant not just because of the pandemic we are now facing but because of the situation the beneficiaries have been and are still experiencing. They are considered as the least among the less due to the lack of representation of their sector in the local government offices and therefore sometimes less priority on the opportunities. The implementers foresee that this project will take the lead for more recognition and opportunities for this sector.

IV. GOAL AND OBJECTIVES:

The main goal of this project is to empower and help increase the income of our solo parents through establishing a healthy, stable, and balanced environment within themselves with these specific objectives:

- To make our solo parents more aware of the laws concerning their welfare and be informed of their rights and benefits;
- To give seminars and support to strengthen their psychosocial and physiological health; and
- To provide technical assistance to make our solo parents improve the skills that they can use as livelihood or as an additional source of income to augment their household budget.

V. PROJECT DESCRIPTION:

Project SPACE will be implemented on the 26 barangays in the municipality of Pontevedra, Capiz with the registered Solo Parents as the target beneficiaries. The beneficiaries will be chosen from these two criteria: Indigent and Needy. The Project will be implemented by CapSU Pontevedra and LGU Pontevedra under the **KaLaPIT (Kabuy-anan, Ika-ayong Lawas, Panguma, Ihibalo, Teknolohiya) Program** by which both institutions are under memorandum of agreement. The project will launch in April 2022 and end in June 2025.

C. Monitoring and Evaluation Scheme

Establishing rapport and gaining trust from the target beneficiaries are the most essential elements the project management team wants to build. The team wants that the beneficiaries will have a sense of being important in this society. That their sector is being acknowledged. Hence, to materialize these objectives, a regular visit once every two months will be conducted. Attending regular meetings or conducting focused group discussion activities will also be made.

M & E Framework

Project Title:	Project SPACE (<i>Solo Parents Acknowledgement, Capacity-building, and Empowerment</i>)			
Goal:	To empower and help increase the income of the solo parent members.			
Objective:	- To make our solo parents more aware of the laws concerning their welfare and be informed of their rights and benefits; - To give seminars and support to strengthen their psychosocial and physiological health; and - To provide technical assistance to make our solo parents improve the skills that they can use as livelihood options or as an additional source of income to augment their household budget.			
Stakeholders	Information Requirements	Actor/Person Responsible	When (Timing and Frequency)	Activities/Process/Methods
Solo Parent Association Members	- Level of awareness on RA 8972 – acquisition of benefits and privileges, - Personal behavior and attitude towards oneself and community, - Financial status & other problems encountered.	CapSU Staff, MSWDO Staff, BLGU & Association Officials	Monthly/Quarterly/Annually	Field Visit, Focus Group Discussion, Assembly/Meeting
	Outcome evaluation report – with or without the project/ impact.		After the completion of the project.	Project Evaluation and Feed backing Activity
CapSU & MSWDO Staff	- Updated registration of the Solo Parent Members in the municipality/ community - Updated list of members in the association	CapSU Staff, MSWDO Staff, BLGU & Association Officials	Whole duration	Validation, Coordinator between/among the partner agencies/offices.

Data Collection Plan

	Indicators (with baseline and targets)	Data Collection Methods	Time or Schedule and Frequency	Responsibilities	Means of verification / Data Source and Type	Resources Needed
OUTCOME - Improved knowledge of laws concerning their welfare; - Improved well-being and time management in his/herself and in the family or loved ones. - Additional opportunities through a business venture.	80% of the adopted beneficiaries are knowledgeable on benefits and privileges under RA 8972 as well as availing of the comprehensive package under this act. 70% of the adopted beneficiaries consider themselves physically, emotionally, and mentally strong and healthy. 50% of the adopted beneficiaries are able to increase their income	Site visit, interview and validation of the beneficiaries	Monthly/Quarterly/Annually	CapSU Staff, MSWDO Staff, BLGU & Association Officials	Descriptive Questionnaire	Transport Service and Food Allowance

Republic of the Philippines
CAPIZ STATE UNIVERSITY
PONTEVEDRA CAMPUS

Bailan, Pontevedra, Capiz

website: www.capsu.edu.ph email address: pontevedra@capsu.edu.ph

OUTPUT Completed training sessions which include training-seminars on R.A. 8972 and other relevant laws, Training on Personality Development (Psychological and Physiological), and Livelihood Skills Training.	90% of the target beneficiaries are able to attend and complete the training	Registration and attendance	Upon registration	Training Management Team	Registration and attendance sheet	Transport Service, Food, Supplies and Materials
--	--	-----------------------------	-------------------	--------------------------	-----------------------------------	---

VII. SUSTAINABILITY PLAN

To sustain the project, the following activities will be made:

ORGANIZATIONAL	FINANCIAL	COMMUNITY
- Follow thru visits to ensure that the project is yielding desired benefits - Fundraising skills to raise fund from other agencies.	- Return of Investment of Livelihood Project - Link beneficiaries to other agencies to provide support - From members contribution	Community-based mechanism (Cooperative/ Association)

Accredited: *Accrediting Agency of Chartered Colleges and Universities of the Philippines (AACCUP)*
Member: *Philippine Association of State Universities and Colleges (PASUC)*
Agricultural Colleges Association of the Philippines (ACAP)

Certificate No.: SCP000383Q

VIII. RESOURCE REQUIREMENTS

Budgetary requirements will be shared by both institutions: CapSU Pontevedra and LGU Pontevedra.

Nature	Year 1	Year 2	Year 3	
Meals and Snacks during Training and other activities (<i>Lunch for Facilitator & Speaker, Snacks for Participants:</i>	262,500.00	637,000.00	700,000.00	1,599,500.00
Transport/ Communication Allowance	10,000.00	10,000.00	10,000.00	30,000.00
Office Supplies	10,000.00	10,000.00	10,000.00	30,000.00
Training Materials (and Starter Kit during Livelihood Training)	10,000.00	50,000.00	520,000.00	580,000.00
Token for Speakers	15,000.00	15,000.00	20,000.00	50,000.00
			Total	2,289,500.00

IX. ANNEXES

P.R.Batacandolo (2019) Effectiveness of the Comprehensive Package of Social Development and Welfare Services for Solo Parents in the Province of Capiz
