

Extension Proposal of Bachelor in Elementary Education

PROJECT TITLE:	TECHTURO
PROPONENT:	Deolinda B. Delamide, MAT
CO- PROPONENTS:	Jay Ann B. Gregorio, MaEd, RGC Fabian D. Tomco, EdD Elizabeth C. Dayal, EdD Anna May C. Candelario, EdD Eric Esteban B. Contreras, EdD Marcela C. Buenvenida, EdD Alita Rose B. Candare, EdD Jan Rosarth B. Banilla, MAT Leizyl B. Igdanes, MaEd

I. RATIONALE:

In the educational landscape of contemporary world of teaching, the infusion of digital technology has become increasingly essential to enhance and transform traditional teaching methods to modern education strategies. The incorporation of digital tools in teaching reading, writing, and numerical literacy is a strategic response to the evolving needs of students/ pupils in a technology-driven society according to Mills (2016). In addition, Theory of Remediation aims to give additional standards for generating and comprehending convergent media products as stated by Bolter and Grusin (2002). In this regard, the TECHTURO extension program of Bachelor in Elementary Education aims to provide the advantage and pedagogical benefits of using digital technology to teach reading writing and numerical literacy skills to every learner who needs to be engaged and empowered in digital technology platform in the art of teaching and learning process.

San Esteban Elementary School is one of the small schools in the town of Pilar, Capiz with low literacy and numeracy rates based on the Phil-IRI Result and ERUNT in the District of Pilar. Aside from this data, there is not enough modern technology facilities used for the learning process of pupils for their enhancement. To cope with their learning needs the TECHTURO extension program of Bachelor in Elementary Education is designed to introduce the learning process through digital platforms such as, PowerPoint presentation, gaming, you tube and other forms of digital literacy and numeracy process.

II. OBJECTIVES:

This extension program aims the following:

1. Identify specific weaknesses in reading, writing, and numerical literacy;
2. Integrate digital technology platform in reading, writing, and numerical literacy; and
3. Design reading materials or IEC supplementary materials to address the gap reading, writing, and numerical literacy skills.

III. METHODOLOGY:

TECHTURO will be conducted on summer 2024. The target participants are the fifteen (15) pupils in the bottom line of literacy and numeracy level of San Esteban Elementary School and ten parents (10) of Barangay San Esteban, Pilar, Capiz. This will be participated by qualified beneficiaries in Barangay San Esteban, Pilar, Capiz, and elementary school third year BEED students, faculty from the BEED Department, and the extension staff. The signing of MOA by the LGU of Barangay San Esteban, Pilar, Capiz in collaboration with San Esteban Elementary school, will be done prior to the conduct of the extension to be followed by the conduct of Need Assessment and Profiling of the beneficiaries. The conduct of Need Assessment will be to the weaknesses of the beneficiaries in numeracy and literacy. After the approval of both parties, the implementation of the Program Activity, TECHTURO will be done on summertime based on DepEd school calendar and activity to avoid disruption of pupils' school time schedule. After which, the tutorial of remedial classes with the digital integration in the different platforms such as PowerPoint presentation, gaming, YouTube etc. will be conducted for ten consecutive days (10 days) in the morning and afternoon session for remedial classes to pupils, and two (2) days psychosocial training for parents based on the agreed and approved schedule by the beneficiary and the TECHTURO extensionists. Upon completion of the remedial session, the Phil- IRI and ERUNT will be conducted again to measure the beneficiaries' progress. The monitoring and evaluation of pupils' progress every quarter will also be done to identify areas for improvement and making adjustment to program activities.

IV. RESOURCE REQUIREMENTS:

1. Training Management Team
BEED Coordinator, BEED faculty, Third Year BEED students, Extension staff
2. Resource Person/s
BEED Faculty
Deolinda B. Delamide, MAT
Jay Ann B. Gregorio, MaEd, RGC
Fabian D. Tomco, EdD
Elizabeth C. Dayal, EdD
Anna May C. Candelario, EdD
Eric Esteban B. Contreras, EdD
Marcela C. Buenvenida, EdD
Alita Rose B. Candare, EdD
Jan Rosarth B. Banilla, MAT
Leizyl B. Igdanes, MaEd

V. SCHEDULE OF ACTIVITIES

Phase 1

Activity	Jan	Feb	Mar	April	May	June	Jul	Aug.	Sept.	Oct.	Nov.	Dec.
----------	-----	-----	-----	-------	-----	------	-----	------	-------	------	------	------

1 Proposal- Making and signing of MOA												
Need Assessment												
2. Conduct of an Orientation Program.												
3. Implementation of of TECHTURO on Summer based on DepEd Calendar year and as per agreed and approved by both parties												
4. Monitoring and evaluation of pupils progress every quarter on the succeeding semester or as the need arises.												
5. Giving of Merit s and special awards to the beneficiaries.												
6. Impact Study	Will be conducted after the implementation of the program (3 years after)											

VI BUDGETARY REQUIREMENTS

Extension Fund- 180,000 .00 (60,000 x 3 years) (c/o RDE Office)

1. MOA Signing
2. Need Assessment
3. Orientation
4. Implementation
5. Monitoring
6. Impact Study
