(9A) Abstract

The success and failure of a graduate degree program can be measured through the performance of its graduates. This tracer study was conducted in order to describe the job performance, satisfaction and achievements of the Ed.D. graduates of the College of Education, Arts and Sciences of CapSU Pontevedra. The study utilized the descriptive-quantitative research design with the 23 Ed.D graduates from school year 2013 to 2021 as the respondents of the study. A researcher-made questionnaire was used on order to gather the needed data through the Google Forms. Result shown that The respondents are averagely 47.47 years old; females; most of them graduated in school year 2016 and 2019; employed in the government for 20 years; employed in a State Colleges and University or TESDA Institution; appointed as a SUC faculty; performed more than one designations in their current jobs of which are supervisory (administrative, academic and non-academic) in nature. They had an outstanding performance in their jobs for the past three (3) years of evaluation. They are very satisfied with their work; and satisfied with the compensation that they receive, with the position that they occupy, in the performance of their duty, with their colleagues and their workplace condition. They have received various awards in the field of academic and administrative in the performance of duty, research, civic, and honorary. Moreover, they were promoted more than once after graduation in Ed.D. and while pursuing their degrees. These promotions are academic and administrative in nature.

Tracer Study, Doctor of Education alumni, CapSU Pontevedra, Job Performance, Job satisfaction, achievements

(10) Introduction (This includes the rationale, background of the study, and objectives which are not divided by subheadings. Incorporate at least three (3) reviews)

Graduate tracer studies have come to represent one of the key approaches for enhancing study programme effectiveness in contemporary higher education (Hope & Ansah, 2020). Moreover, graduates' employability is among the key issues pertaining to higher education institutions (HEIs), employers, students and other stakeholders (Abbas & Sagsan, 2020). This study traced the Ed.D. graduates' of the College of Education, Arts and Sciences of Capiz State University Pontevedra Campus for 2015 to 2021 to gather insights on how they have advanced on their professional careers after finishing their respective degrees. The study also attempted to describe their personal profile, job performance, job satisfaction, and their achievements gained in their workplaces after graduation. Results of the study is deemed beneficial in order to identify probable recipients of the programs and/or projects to be implemented by the college that can help accelerate the university's performance and stature.

Statement of the Problem

This study aimed to answer the following questions:

1. What is the profile of the respondents in terms of:

	Document Type:	Document Code	RES- CR-01
	DOCUMENTED INFORMATION ISO 9001:2015	Revision No.	00
	Document Title:	Effective Date

- a. age,
- b. sex,
- c. Year Graduated
- d. Years in Service
- e. Work Assignment/ Employment
- f. position,
- j. other designations ?
2. What is the extent of job performance of the respondents in their work?
3. What is the extent of satisfaction of the respondents in their jobs in terms of
 - a. work,
 - b. compensation,
 - c. present position,
 - d. performance of duty,
 - e. satisfaction with colleagues, and
 - f. satisfaction with workplace condition?
4. What are the achievements gained by the respondents after completing their degrees in terms of
 - a. awards, and
 - b. promotion?

(11) Methodology

The study was conducted at the College of Education, Arts and Sciences Teacher Education Department, from November to December 2021.

This study used the descriptive research design which described the profile, job performance and satisfaction, and achievement of the respondents after graduation in Doctor of Education Program of CapSU Pontevedra.

The respondents of the study were the graduates of the Doctor of Education major in Educational Management at the College of Education, Arts and Science of CapSU Pontevedra Campus from school year 2015-2016 to school year 2020-2021.

A researcher-made questionnaire through Google Forms was utilized as a data gathering instrument. The data were computer-processed using the Statistical Package for Social Science (SPSS) for reliable and accurate data analysis. Descriptive statistics such as

frequency counts, percentages, mean average scores were employed in analyzing the descriptive data.

(12) Results and Discussions

Respondents Profile

Age. The respondents have a mean age of 47.47 years old. The oldest of them is 61 years; youngest is only 28 years old; and with the median age of 49 years old. This means that the Ed.D. graduates are in their late adulthood.

Sex. There are 10 (43 percent) males and 13 (57 percent) are female respondents. This implies that Ed.D. graduates are dominated by females.

Year Graduated. School years 2014 and 2019 have been fruitful years for the college since they were able to produce six (6) and five (5) graduates respectively. It was followed by 2016 with four (4) graduates. For the past nine (9) years, the College of Education, Arts and Sciences Graduate School was able to produce 23 Doctor of Education graduates who became part of the history of the campus as well.

			Page	Page 5 of 18

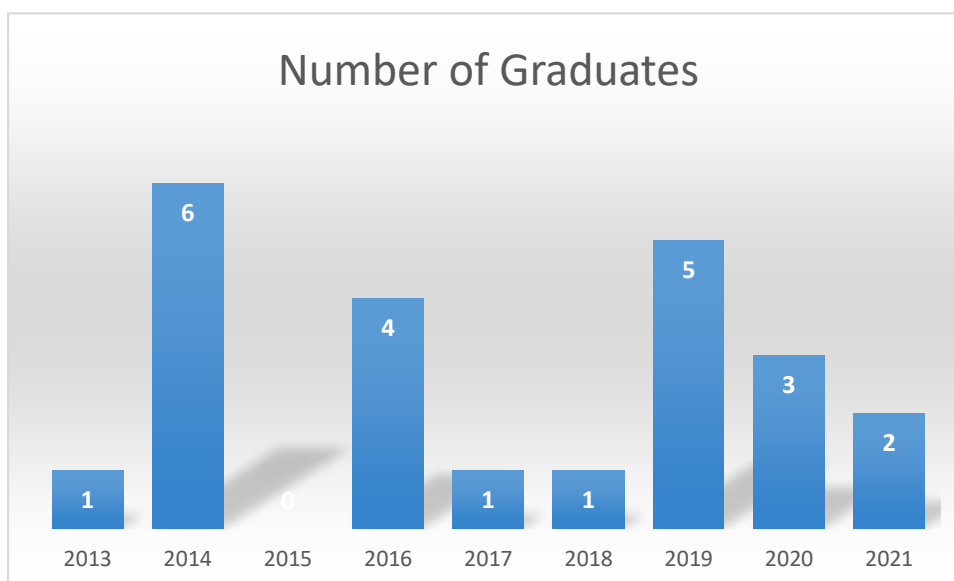

Figure 2. Respondents' Profile in terms of Year Graduated.

Years in Service. The respondents have stayed in government service for about 20.35 years. They have served for the longest time of 38 years; the shortest service of 4 years; and the middle range of 23 years. In detail, 9 (39 percent) of them served for 20-29 years; 8 (35 percent) of them served for 10-19 years, and 3 (13 percent) of them have served below 10 years and 30 years and above respectively. This implies that the Ed. D. graduates are already seasoned in the field of public service for they have been in the service for more than 15 years already.

Work Assignment/ Employment. The respondents are into different work assignments that is from teaching to supervisory tasks. Looking closer, 11 (48 percent) of them are connected in SUC/TESDA Institution; 4 (17-18 percent) of them are employed in a public elementary school and Schools Division Office respectively; 3 (13 percent) are working in public secondary school; and 1 (4 percent) at private HEI.

			Page	Page 7 of 18

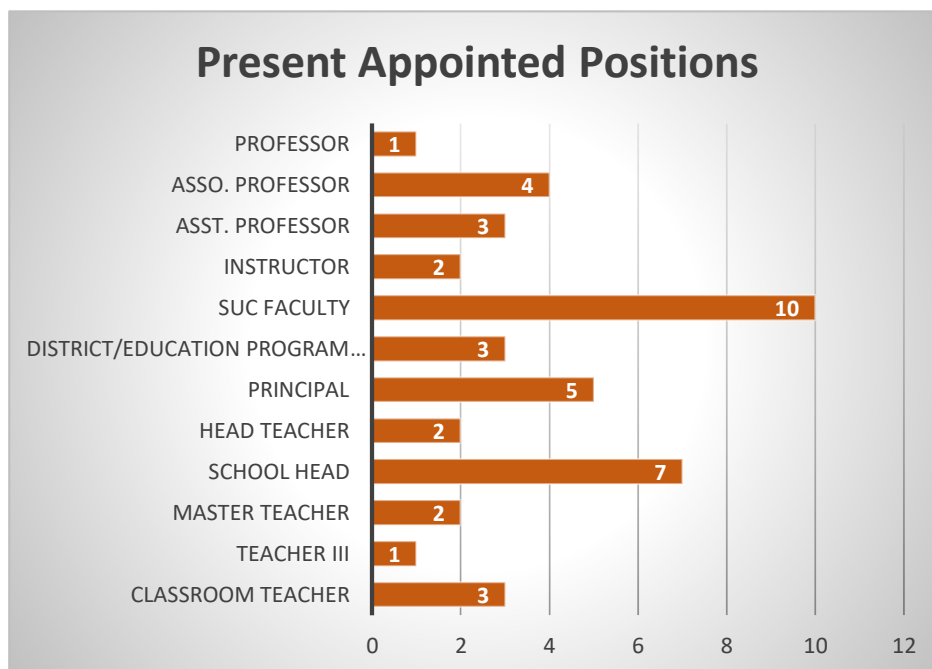

Figure 5. Respondents' Profile in terms of Appointment Status.

Other Designations. Results showed that the respondents performed more than one designations in their current jobs. In fact, they have a total of 16 types of designations and about 10 types in their second designations. Moreover, it ranges from a minimum of 1 and a maximum of 4 designations.

For their first designation, it includes Supervising Librarian, Extension Chair, Quality Assurance Manager, Ed.D. Program Chair, School LR Focal Person, Co-chair of Quality Assurance, COEAS Extension Coordinator, School Planning Officer, OSA Chair, BSABE Program Coordinator, CBAO Chair, GS Secretary, Division Testing Coordinator, School English Coordinator, District Mathematics Coordinator, District Research Focal Person, District Teacher Induction Coordinator, and District Training and Development Coordinator.

Their second designations are GSIS Alternate AAO, GSIS EBCS Handler, Multi-Faith Coordinator, Diploma Program Focal, FOI Officer, OIC Dean College of Education, Inclusive Education Coordinator, SBM Wins Coordinator, Scholarship Coordinator, Extension Chair, and District Filipino Coordinator.

Extent of Job Performance of the Respondents in Their Work

The respondents had outstanding (13 or 57 percent) performance in their jobs for the past three (3) years of evaluation. 10 (43 percent) of them however had a very satisfactory rating. This implies that the Ed.D. graduates are the top performing employees in their respective workplaces.

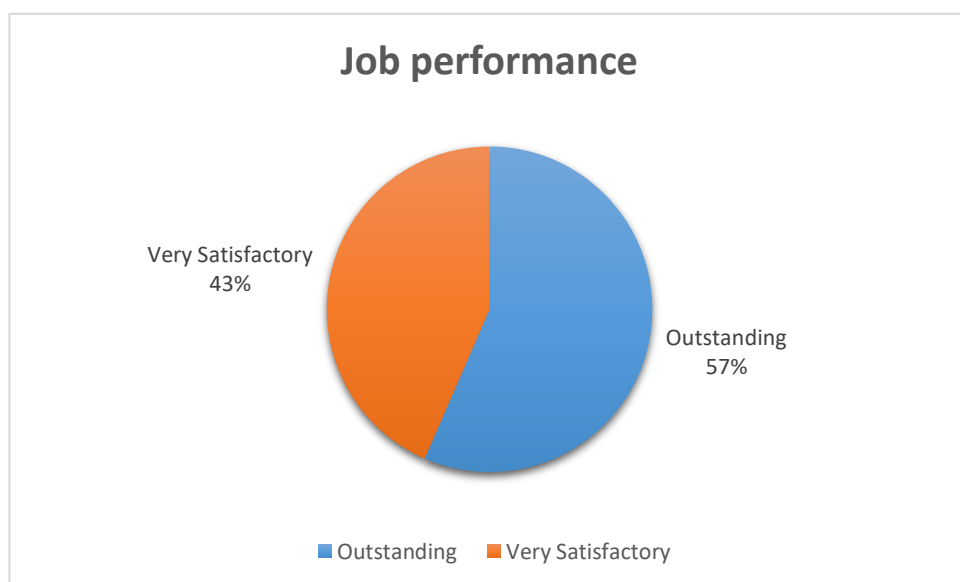

Figure 6. Job Performance of Respondents in Their Work.

Extent of Satisfaction of the Respondents in their Jobs

Work. Results revealed that the respondents are *very satisfied* (M=15) of their work (65 percent). 15 (65 percent) of them were *very satisfied*; and 4 (17-18 percent) are *satisfied* and *extremely satisfied* with their work respectively. This implies that the Ed. D graduates of CapSU Pontevedra are contented of their present work.

Compensation. The respondents are *satisfied* (M=3.74) with the compensation that they received. Data further revealed that 10 (44 percent) of them are *satisfied*; 9 (39 percent) are *very satisfied*; and only 4 (17 percent) of them are *extremely satisfied*. This implies that the Ed.D. graduates are satisfied of their job in terms of the compensation that they received from their jobs.

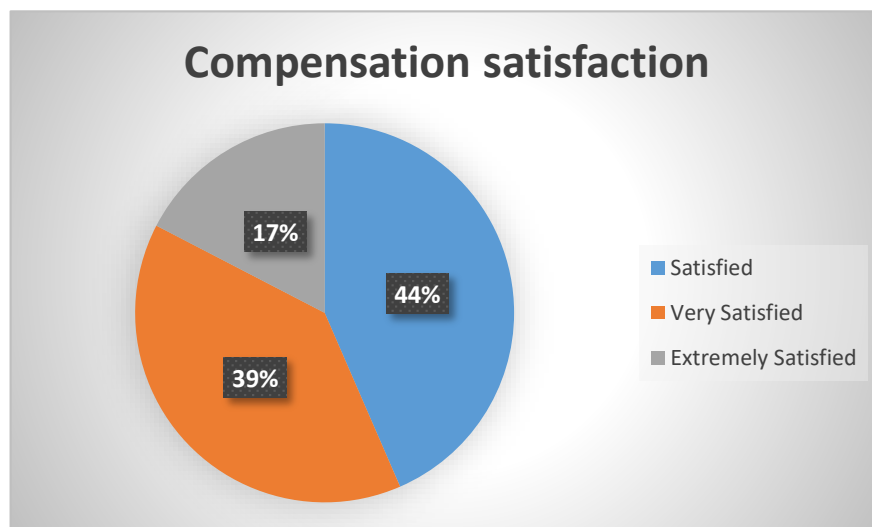

Figure 8. Job Satisfaction of Respondents in their Jobs in terms of Compensation.

Performance of duty. Data revealed that the respondents are *satisfied* ($M=4.13$) with their job in their performance of duty. In detail, 14 (61 percent) of them are *very satisfied*; 6 (26 percent) are *extremely satisfied*; and 3 (13 percent) are *satisfied*. This implies that the Ed. D. graduates are happy while performing their duties and other designations in the workplaces.

Satisfaction with colleagues. Generally, the respondents are *satisfied* ($M= 3.87$) with their colleagues. Data further revealed that 14 (61 percent) of them are *very satisfied* with their colleagues; 6 (26 percent) are *satisfied*; and 3 (13 percent) are *extremely satisfied*.

Satisfaction with workplace condition. The data revealed that the respondents are *satisfied* ($M= 3.78$) in their workplace condition. Meanwhile 11(48 percent) are *very satisfied* with the workplace condition; 7 (31 percent) are *satisfied*; 4 (17 percent) are *extremely satisfied*; and only 1 (4 percent) is dissatisfied. This goes to show that the Ed.D. graduates are can tolerate and would like to stay in their respective work stations.

Promotion. A larger percentage of the respondents were promoted after graduation in Ed.D. or while they are pursuing their degrees. Data revealed that 15 (65.22 percent) were promoted with 4 (17.39 percent) had subsequent promotions and 11 (47.83 percent) have no subsequent promotion. Meanwhile, only 8 (34.78 percent) of them were not promoted. This implies that their degrees had been one of the contributory factors of their promotions in their jobs.

To further elaborate, their first promotion in the administrative and academic functions includes Principal 1, III, and IV; Assistant Professor 2, 3, 4; Professor 4 to 5; Master Teacher 1 and II; and Secondary School Teacher III.

Their subsequent promotions include Assistant Professor 3, Associate Professor 5, from Professor 5 to 6, and Senior Education Program Specialist, Monitoring and Evaluation. These are both academic and administrative in nature.

(13) Conclusions and Recommendations

Conclusions

1. The respondents have a wide gap of ages which ranges for early to late adulthood and nearly retirement age; females; have joined the CapSU Alumni Associated by the years 2016 and 2019; have spent more than half of their lives in the government service; employed in State Colleges and Universities or TESDA institution; belonged to the rank and file as a SUC faculty; performs multi-tasking supervisory jobs such as administrative, academic, and non-academic.
2. The respondents have worked hard and performed their jobs seriously that they were able to maintain their ratings for the past three years.
3. The respondents find satisfaction and love their jobs because of their nature of work, financial capacity, present position, performance of duty, harmonious relationship with the colleagues, and with their conducive working environment.
4. The respondents have grown professionally in their chosen careers and are multi-awarded in the field of academe.

Recommendations

1. The college may intensify their campaign for the Ed.D. program to attract young school heads and soon to be school administrators to enroll in the program and finish their degrees within the prescribed duration.
2. The enhancement of the Ed.D. students' research skills is encouraged to fully capacitate them in conducting researches in their respective workplaces to advance education as a proof of translated program outcomes of the college.
