(9) Rationale The research problem addressed by the project titled "Navigating Inclusion: LGBTQIA+ Student Experiences of Capiz State University" stems from the growing concerns across the Philippines regarding the inclusion and well-being of LGBTQIA+ students within educational institutions. Despite strides towards inclusivity, significant gaps persist, particularly in understanding the specific experiences and challenges faced by LGBTQIA+ students within Capiz State University (SUCs). Therefore, this research project aims to fill this crucial gap by delving into the lived experiences of LGBTQIA+ students within SUCs, providing insights into their academic, social, and emotional realities. Investing in this research is justified by the need to understand the unique challenges and needs of LGBTQIA+ students, which are vital for promoting their academic success, mental well-being, and overall educational experience. This endeavor aligns directly with the national thrust towards fostering inclusive and equitable education (SDG 4) and addressing discrimination while upholding human rights (SDG 10). By generating critical data and offering evidence-based recommendations, the research will inform policy and practice, enabling universities, policymakers, and advocates to develop targeted interventions promoting LGBTQIA+ inclusion. Additionally, it will empower LGBTQIA+ students and communities by equipping them with knowledge and resources to advocate for their rights within educational settings. Furthermore, the research will contribute to a broader understanding of LGBTQIA+ inclusion in education, advancing national and international discourse and potentially influencing broader policy and practice changes beyond Capiz. In conclusion, by shedding light on the realities of LGBTQIA+ students in SUCs, this research not only justifies the allocated resources but also promises to create a lasting impact on individuals, institutions, and the nation's progress towards a more inclusive and equitable society.			
(9-A) Project Description Project Strategy and Plan of Action This project aims to explore the experiences of LGBTQIA+ students within the Capiz State University. To achieve this, a multi-pronged approach will be implemented, encompassing data collection, analysis, and interpretation.			
Data Collection: - A survey instrument will be designed to gather demographic information (age, gender, year level, campus) and experiences related to academic environment, campus life, housing and safety, and mental health. - The survey will be distributed to LGBTQIA+ students across all SUC nine (9) campuses through various channels, ensuring anonymity and confidentiality. - Additional data collection methods, like focus group discussions or interviews, may be employed to gain deeper insights into specific experiences.			
Data Analysis: - Quantitative data will be analyzed using statistical software to identify patterns, trends, and potential relationships between variables. - Qualitative data will be subjected to thematic analysis to extract recurring themes and narratives from participants' experiences.			
Technical Procedures: - The survey instrument will be piloted before finalization to ensure clarity and comprehensiveness. - Data collection will adhere to ethical guidelines and informed consent protocols. - Data storage and management will follow secure practices to protect participant privacy.			

	Document Type:	FORM ISO 9001:2015	Document Code	RES-F09
			Revision No.	00
	Document Title:	RESEARCH PROPOSAL	Effective Date	January 26, 2023
			Page	Page 3 of 15

- Statistical analysis will be conducted using appropriate software packages.
- Qualitative data analysis will be guided by established thematic analysis methods.

Relationship between Inputs and Activities:

- The demographic data will serve as the foundation for understanding the characteristics of the study population.
- The experience-related data will be the core input for exploring the research questions.
- Data analysis techniques will be tailored to the specific type of data collected (quantitative or qualitative).
- The findings from both quantitative and qualitative analyses will be integrated to provide a holistic understanding of LGBTQIA+ student experiences.

Similar/Related Projects:

- A 2020 study by the Center for LGBTQ+ Student Success explored the experiences of LGBTQIA+ students at four-year public universities in the United States. The study found that LGBTQIA+ students often face challenges in areas such as campus climate, housing, and mental health.
- A 2019 study by the Philippine Statistics Authority examined the prevalence of self-reported sexual orientation and gender identity among Filipinos. The study found that 7.6% of Filipinos identified as LGBTQIA+.

These prior studies provide valuable context and insights for the current project, allowing for comparisons and identification of unique aspects of the LGBTQIA+ student experience within the SUC system.

(10) Objectives/Statement of the Problem (for Social Sciences) (Statement of the specific purpose to address the problem areas of the project.)

The main objective of this study is to determine the LGBTQIA+ Student Experiences of Capiz State University. This specifically sought to answer the following questions:

1. What is the demographic profile of the students in terms of age, gender, year level and campus?
2. What are the experiences of LGBTQIA+ students of Capiz State University in terms of Academic Environment, Campus Life, Housing and Safety, and Mental health.
3. Is there a significant difference on the experiences of LGBTQIA+ students of Capiz State University when grouped according to its demographic profile?
4. What specific challenges and barriers do LGBTQIA+ students within the State Universities of Capiz community encounter in their educational experiences or campus life?

(11) Review of Literature/Prior Art Search

Understanding the experiences of LGBTQIA+ students within higher education institutions is crucial for creating inclusive and supportive learning environments. This study, titled "The main objective of this study is to determine the LGBTQIA+ Student Experiences of Capiz State University," aims to delve into this critical topic by exploring various aspects of their lives within these universities. This introduction will establish the significance of **the** research by reviewing relevant international and regional studies highlighting the challenges and experiences faced by LGBTQIA+ students.

Globally, research suggests that LGBTQIA+ students face numerous challenges in educational settings. The National Center for Education Statistics (NCES) reported in 2021 that LGBTQIA+ students in US schools are disproportionately targeted for bullying and harassment, leading to negative campus climates (NCES, 2021). This aligns with findings from the Center for LGBTQ+ Student Success, which emphasizes widespread microaggressions, discrimination, and a lack of inclusive policies faced by LGBTQIA+ students in higher education (Center for LGBTQ+ Student Success, n.d.). Furthermore, Human Rights Watch documented widespread discrimination against LGBTQIA+ students in the Philippines in their 2017 report "Just Let Us Be," highlighting barriers to education and safety concerns (Human Rights Watch, 2017). These international studies paint a concerning picture of the challenges faced by LGBTQIA+ students, emphasizing the need for further research and intervention efforts.

Within the Philippines, understanding the specific experiences of LGBTQIA+ students in higher education requires examining regional contexts. The Philippine Statistics Authority (PSA) provides valuable demographic data on the LGBTQIA+ population in their 2019 report, allowing for comparisons between the study sample and the national landscape (PSA, 2019). Moreover, studies conducted within Philippine universities offer crucial insights. The University of the Philippines Diliman study (2019)

	Document Type:	FORM ISO 9001:2015	Document Code	RES-F09
			Revision No.	00
	Document Title:	RESEARCH PROPOSAL	Effective Date	January 26, 2023
			Page	Page 4 of 15

revealed challenges with social acceptance, discrimination, and mental health struggles among LGBTQIA+ students (Gutiao & Villanueva, 2019). Similarly, the Ateneo de Manila University study (2018) highlighted themes of marginalization, lack of support, and negative impacts on well-being (Panganiban & Bautista, 2018). These studies demonstrate the need for further research tailored to the specific contexts of Capiz State University. Through the integration of international, regional, and additional resources, this study aims to contribute meaningfully to the discourse on LGBTQIA+ inclusion in higher education.

(12) Scientific Basis/Theoretical Framework

Exploring the experiences of LGBTQIA+ students at Capiz State University requires navigating a complex web of intersecting factors. Intersectionality Theory, developed by legal scholar Kimberlé Crenshaw (1989), offers a powerful framework for examining how various aspects of social identity, such as race, gender, sexual orientation, and socioeconomic status, interact and shape unique experiences of discrimination and privilege.

This theory offers valuable insights into understanding the nuances of the research questions. For example, when analyzing demographic data, Intersectionality encourages moving beyond isolated categories like age, gender, and year level, and instead considering how these factors combine with LGBTQIA+ identity to create diverse experiences. A transgender woman of color might face distinct challenges compared to a gay cisgender man. Similarly, examining experiences across academic environment, campus life, housing/safety, and mental health necessitates acknowledging that these are not solely shaped by LGBTQIA+ identity but also influenced by intersecting identities. A student facing financial strain might have different housing concerns than a student from a well-off background. Intersectionality acknowledges that LGBTQIA+ students are not isolated individuals but exist within larger communities shaped by various power dynamics. Examining how their experiences intersect with other identities within the university community, such as faculty, administration, and other student groups, is crucial for gaining a holistic understanding.

Employing Intersectionality Theory empowers the research to move beyond simply describing LGBTQIA+ student experiences and delve deeper into the intricate interplay of their identities and its impact on their lives within Capiz State University. This can generate invaluable insights for fostering more inclusive and equitable learning environments that embrace the diversity of all students. However, it's important to remember that Intersectionality is not a one-size-fits-all solution. Consider exploring other relevant theories, such as Minority Stress Theory or Social Identity Theory, that might complement the research specificities. Additionally, mindful application of Intersectionality necessitates ethical considerations, avoiding generalizations and respecting individual experiences.

(13) Methodology

Research Approach: Quantitative survey with follow-up qualitative interviews for deeper exploration.

Variables:

- Independent variables:
 - Demographic characteristics (age, gender, year level, campus)
- Dependent variables:
 - Experiences in academic environment (e.g., academic challenges, faculty interactions)
 - Housing and safety experiences (e.g., access to safe housing, harassment)
 - Mental health experiences (e.g., stress, anxiety, depression)
 - Experiences in challenges and barriers or campus life (e.g., inclusion, discrimination, sense of belonging)

Treatments (not applicable for surveys): Not applicable for this survey-based study design.

Technical Procedures:

1. Instrument development: Design and validate a survey instrument to measure the chosen variables. Researchers made survey instrument and will undergo pilot testing and validation to the experts.
2. Respondents and Sampling: Select a representative sample of LGBTQIA+ students from Capiz State University using random or stratified sampling techniques. Ensure adequate sample size for statistical analysis.
3. Data collection: Administer the survey online or in-person, ensuring informed consent and anonymity.
4. Data analysis:
 - Descriptive statistics: Analyze demographic characteristics and prevalence of various experiences.

	Document Type:	FORM ISO 9001:2015	Document Code	RES-F09
			Revision No.	00
	Document Title:	RESEARCH PROPOSAL	Effective Date	January 26, 2023
			Page	Page 5 of 15

○ Inferential statistics: Use appropriate statistical tests (e.g., t-tests, ANOVA) to examine differences in experiences based on demographic factors (question 4). ○ Correlation analysis: Explore potential relationships between different aspects of experiences (question 5). 5. Qualitative interviews (optional): Conduct follow-up interviews with a smaller sample to gain deeper insights into specific experiences and themes identified in the survey. Statistical Analysis: • Use appropriate statistical tests based on the research questions and data type (e.g., Chi-square, ANOVA, regression analysis). • Report data using clear and concise tables and figures. Evaluation Method and Observations: • Evaluate the research based on its strengths, limitations, and generalizability. • Discuss the implications of the findings for understanding LGBTQIA+ student experiences and creating more inclusive university environments. Strategies for Implementation: • Obtain ethical approval from the university's Institutional Review Board. • Collaborate with LGBTQIA+ student organizations and campus support services to recruit participants and disseminate findings. • Ensure data security and confidentiality throughout the research process.

(15) Expected Output Quantitative Outputs: • Dataset: This will include responses from the representative sample of LGBTQIA+ students at Capiz State University, containing data on their demographic profile (age, gender, year level, campus) and their experiences																																																																	

	Document Type:	FORM ISO 9001:2015	Document Code	RES-F09
			Revision No.	00
	Document Title:	RESEARCH PROPOSAL	Effective Date	January 26, 2023
			Page	Page 6 of 15

across academic environment, campus life, housing/safety, and mental health. The size of the dataset will depend on the sampling strategy, but aiming for at least 300 participants is generally recommended for robust statistical analysis.

- Descriptive statistics: These will summarize the characteristics of the sample (e.g., average age, distribution of genders) and the prevalence of various experiences reported by participants. For example, you might report the percentage of students facing discrimination in campus life or struggling with academic challenges.
- Inferential statistics: These will test for statistically significant differences in experiences based on demographic factors (question 4). For example, you might compare the reported levels of mental health distress among students of different age groups or genders.
- Correlation analysis: This will explore potential relationships between different aspects of students' experiences (question 5). For instance, you might investigate whether students facing housing insecurity also report higher levels of anxiety.

Qualitative Outputs (Optional):

- Interview transcripts: If you conduct follow-up qualitative interviews, these transcripts will capture in-depth narratives and rich descriptions of LGBTQIA+ students' experiences, providing deeper insights beyond quantitative data.
- Thematic analysis: You can analyze interview transcripts to identify recurring themes and patterns in students' experiences, offering a nuanced understanding of their challenges and perspectives.

Overall Impacts:

- Enhanced understanding of LGBTQIA+ student experiences: the research can contribute valuable knowledge about the diverse experiences of LGBTQIA+ students within Capiz State University, highlighting both positive and negative aspects.
- Identification of areas for improvement: By pinpointing specific challenges faced by students, the findings can inform efforts to create more inclusive and supportive campus environments.
- Advocacy and policy recommendations: The research can be used to advocate for policy changes and interventions that address the needs and concerns of LGBTQIA+ students, promoting greater equity and well-being.

(16) Technology Transfer Activity Design (Indicate the specific products, activity design, processes or services to be transferred as extension activities)

Extension Activities based on THE LGBTQIA+ Student Experiences research:

Knowledge Dissemination:

- Infographics and Reports: Develop easy-to-understand infographics summarizing key findings for wider audience reach (students, faculty, staff, general public). Create detailed reports for policymakers and university administrators.
- Presentations and Workshops: Organize presentations for various stakeholders (student groups, faculty orientations, administrative meetings) to raise awareness about LGBTQIA+ student experiences and research results. Consider conducting workshops focused on specific topics like safe spaces, inclusive practices, or mental health support.
- Social Media Campaign: Utilize social media platforms to share key findings and recommendations in an engaging way, reaching a broader audience and encouraging conversations.

Community Engagement:

- Focus Group Discussions: Organize focus groups with different student populations (LGBTQIA+ identified and non-identified) to discuss specific findings and gather further insights for next steps.
- Community Dialogues: Facilitate open discussions within the university community (students, faculty, staff) to discuss the research findings, challenges identified, and potential solutions collaboratively.
- Student-Led Initiatives: Partner with LGBTQIA+ student organizations and allies to co-create and implement initiatives based on research findings, such as peer support groups, safe spaces, or cultural events.

Policy and Practice Recommendations:

	Document Type:	FORM ISO 9001:2015	Document Code	RES-F09
			Revision No.	00
	Document Title:	RESEARCH PROPOSAL	Effective Date	January 26, 2023
			Page	Page 7 of 15

- Develop a policy brief: Summarize key findings and recommendations for creating a more inclusive campus environment, addressing specific areas identified in the research. Share this with university administrators and decision-makers.
- Collaborate with policy committees: Partner with relevant university committees responsible for diversity, inclusion, or student affairs to integrate research findings into policy discussions and potential changes.
- Advocate for resource allocation: Use the research to advocate for increased funding for initiatives and resources that support the well-being and success of LGBTQIA+ students, such as mental health counseling, cultural centers, or diversity training programs.

Further Research:

- Quantitative follow-up studies: Conduct longitudinal studies to track changes in LGBTQIA+ student experiences over time after implementing interventions or policy changes based on the initial research.
- Qualitative exploration: Explore specific themes or experiences identified in the initial research through in-depth interviews or focus groups to gain deeper understanding.
- Collaboration with other universities: Partner with other institutions to conduct comparative studies on LGBTQIA+ student experiences across different contexts to share best practices and inform broader policy changes.

(17) Target Beneficiaries

Clienteles and Expected Outcomes of the LGBTQIA+ Student Experiences Research:

Clienteles:

- LGBTQIA+ Students at Capiz State University: The research directly benefits this group by:
 - Raising awareness: Bringing their experiences to light and increasing visibility within the university community.
 - Validating their experiences: Showing them their challenges are acknowledged and understood.
 - Informing support initiatives: Providing data to guide the development of resources and interventions tailored to their needs.
- University Administration and Faculty: This research can inform:
 - Policy and practice changes: Identifying areas for improvement to create a more inclusive campus environment.
 - Resource allocation: Highlighting areas where additional resources are needed to support LGBTQIA+ students.
 - Training and development: Providing insights to inform faculty and staff training on LGBTQIA+ inclusion and cultural competency.
- Policymakers and Advocacy Groups: The research can influence:
 - Local and national policies: Providing data to support advocacy for policies that protect and promote LGBTQIA+ rights in educational settings.
 - Funding allocation: Advocating for increased funding for programs and initiatives that support LGBTQIA+ students across institutions.
- General Public: The research can contribute to:
 - Increased understanding and empathy: Raising awareness about the diverse experiences of LGBTQIA+ students and fostering inclusive attitudes.
 - Challenging stereotypes: Dispelling misconceptions and promoting social change towards greater acceptance and equality.

Expected Outcomes and Effects:

- Improved sense of belonging and inclusion: LGBTQIA+ students feel safer, more accepted, and valued within the university community.
- Enhanced academic performance and well-being: Reduced discrimination and improved support lead to better academic outcomes and mental health for LGBTQIA+ students.
- More inclusive campus policies and practices: University policies and practices reflect the needs and concerns of LGBTQIA+ students, promoting equity and fairness.
- Increased awareness and understanding: The broader community, including faculty, staff, and the general public, gain a better understanding of the challenges and experiences of LGBTQIA+ students.

- Civil Service Awardee

HIGH SCHOOL DIPLOMA
Vicente Andaya Sr. National High School / Poblacion Sur, Sigma, Capiz, Philippines / 2008

WORK EXPERIENCE

Capiz State University
Oct 2020 - Present
Roxas City, Philippines

INSTRUCTOR I

Instructor I, Tourism and Hospitality Management Department
Gender & Development Focal Person
Research Adviser and Panelist
Capiz State University Sigma Satellite College
October 2020 – Present

Researcher
Completed 3 Research entitled:
1. "Impact of Community Extension Programs To Capsu-sigma Faculty & Students"
2. "Perception of the Students Towards the Bachelor of Science in Hospitality Management Department Home-Based Internship Program of Capiz State University"
3. Perception of the Students towards the Bachelor of Science in Hospitality Management Department Home-based Internship Program of Capiz State University

Subjects taught:
1. Introduction to Meetings, Incentives, Conference and Exhibitions
2. Accommodation Operation and Management
3. Ergonomics in Tourism and Hospitality Management
4. Hospitality & Tourism Facilities Management & Design

Colegio de San Juan de Letran
Sep 2016 - May 2020
Calamba, Calamba City, Laguna, Philippines

INSTRUCTOR

Major Key Role & Contributions:

- Library Committee 2019-2020
- Tourism & HRM/HM Research Adviser & Panelist
- Building Course Curriculum
- Preparing Course Syllabi
- Mentoring and Coaching Students
- Create and Prepare Supplementary Materials
- Community Extension Service Moderator 2019-2020
- Research Adviser and Panelist

Subjects taught:

- Applied Business Tools and Technologies for Tourism and Hospitality
- Tourism & Hospitality Management Information System

Experiences of LGBTQIA+ Students of Capiz State University

Academic Environment						
No.	Statement	1	2	3	4	5
1	As an LGBTQIA+ student at Capiz State University, I have experienced a mixture of positive and negative moments in the academic setting.					
2	I am grateful for the supportive peers and faculty members who acknowledge and respect my identity, making the learning environment inclusive and welcoming.					
3	Unfortunately, there have been times when I have faced discrimination or harassment from classmates or even faculty members, which can be disheartening.					
4	Finding academic resources or support services tailored to my needs as an LGBTQIA+ student has been a challenge, leaving me feeling overlooked or misunderstood.					
5	In classroom discussions, I have sometimes felt isolated or unheard when topics related to LGBTQIA+ issues are not addressed, making it difficult to fully engage.					
6	Despite these hurdles, I have managed to excel academically thanks to my resilience and the encouragement from supportive allies within the university community.					
7	Capiz State University could enhance inclusivity by integrating LGBTQIA+ perspectives into the curriculum and providing diversity training for faculty members.					
8	There is often a fear of judgment or bias when considering disclosing my identity to academic advisors or mentors, which can hinder seeking support when needed.					
9	Establishing safe spaces and support networks within the university community is crucial for enhancing the academic experience and fostering a sense of belonging for LGBTQIA+ students like myself.					
10	The Capiz State University promotes a culture of acceptance and respect within the academic environment that benefits everyone, regardless of sexual orientation or gender identity, creating a more enriching and fulfilling educational experience for all students.

Campus Life						
No.	Statement	1	2	3	4	5
1	As an LGBTQIA+ student at Capiz State University, I have encountered a mix of positive and negative experiences in campus life.					
2	Positive moments include finding supportive friends and allies who embrace my identity and create a welcoming atmosphere.					
3	However, negative experiences can arise, such as facing discrimination or judgment from some members of the campus community.					
4	LGBTQIA+ students may struggle to find inclusive spaces or events where they feel fully accepted and represented.					
5	Despite challenges, many LGBTQIA+ students form strong bonds within the community, providing mutual support and understanding.					
6	Capiz State University has opportunities to enhance inclusivity by organizing more LGBTQIA+-friendly events and activities.					
7	Some LGBTQIA+ students may feel hesitant to openly express their identity due to fear of backlash or misunderstanding.					
8	Creating designated safe spaces on campus can offer solace and a sense of belonging for LGBTQIA+ students seeking support.					
9	Campus organizations and clubs focused on LGBTQIA+ issues provide valuable resources and connections for students navigating their identity.					
10	Overall, the Capiz state university, fosters a culture of acceptance and respect within campus life benefits all LGBTQIA+, promoting a vibrant and diverse community where everyone can thrive.					

Housing and Safety						
No.	Statement	1	2	3	4	5
1	Living as an LGBTQIA+ student at Capiz State University brings a mix of positive and negative experiences regarding housing and safety.					
2	Positive experiences include finding accepting roommates and dorm mates who respect and support my identity.					
3	However, negative experiences may arise, such as concerns about safety and discrimination within campus housing.					
4	LGBTQIA+ students may worry about facing harassment or judgment from roommates or neighbors based on their identity.					
5	Despite challenges, some LGBTQIA+ students find solace and support through housing options that prioritize inclusivity and acceptance.					
6	Capiz State University has opportunities to improve housing policies to ensure the safety and well-being of LGBTQIA+ students.					
7	Some LGBTQIA+ students may opt for off-campus housing to escape potential discrimination or discomfort in on-campus residences.					
8	Creating LGBTQIA+ housing options or designated safe spaces within dormitories can enhance feelings of safety and belonging.					
9	Campus safety measures should be inclusive and consider the unique concerns of LGBTQIA+ students, ensuring their well-being.					
10	Overall, the Capiz state university, fosters acceptance and respect in housing situations benefits all students, promoting a sense of security and community for everyone.

Mental Health						
No.	Statement	1	2	3	4	5
1	As an LGBTQIA+ student at Capiz State University, I have encountered a range of mental health experiences, both positive and negative.					
2	Positively, I have found supportive peers and resources that understand and validate my identity, contributing to my overall well-being.					
3	Sometimes, as an LGBTQIA+, negative experiences include stigma and discrimination, which can take a toll on mental health and self-esteem.					
4	LGBTQIA+ students may struggle with anxiety or depression due to societal pressures and fear of judgment.					
5	Despite challenges, many LGBTQIA+ students find resilience and strength through community support and advocacy efforts.					
6	Capiz State University has opportunities to enhance mental health services and provide specialized support for LGBTQIA+ students.					
7	Some LGBTQIA+ students may feel hesitant to seek help for mental health concerns due to fears of discrimination or lack of understanding.					
8	Creating safe spaces and support networks specifically for LGBTQIA+ students can improve access to mental health resources and reduce feelings of isolation.					
9	Campus-wide education and awareness campaigns can help combat stigma and promote acceptance, benefiting the mental health of all students.					
10	Overall, the Capiz state university, fosters a culture of acceptance and support within the university community is essential for promoting positive mental health outcomes for LGBTQIA+ students.					

Interview Guide

Experiences of students towards the gender-responsiveness of teachers at Capiz State University

- Introduction:
 - Can you please introduce yourself and explain the purpose of this interview?
 - Can you assure the interviewee that their responses will be kept confidential?
- Background Information:
 - Could you provide some background information about yourself, such as your major, year of study, and involvement in campus activities?
 - Are you comfortable sharing your sexual orientation and gender identity?
- Understanding LGBTQIA+ Experiences:
 - Can you describe your experiences as an LGBTQIA+ student within the State Universities of Capiz community?
 - Have you had any positive experiences related to your LGBTQIA+ identity on campus?
 - Have you encountered any negative experiences, such as discrimination, harassment, or exclusion?
- Challenges and Barriers:
 - What specific challenges and barriers have you faced as an LGBTQIA+ student in your educational experiences or campus life?
 - Have you encountered any difficulties in accessing support services or resources tailored to LGBTQIA+ needs?
 - What obstacles have you faced in forming social connections or participating in campus activities due to your LGBTQIA+ identity?
- Support Systems:

	Document Type:	FORM ISO 9001:2015	Document Code	RES-F09
			Revision No.	00
