"The list represents seven creative fields – crafts and folk art, design, film, gastronomy, literature, media arts, and music.

Further, Senate Bill 622, which would amend the National Cultural Heritage Act of 2009, strengthen heritage conservation in the country and mandate local government youth to conduct a comprehensive cultural mapping.

According to United Nations Youth, Culture can transform entire societies, strengthen local communities, and forge a sense of identity and belonging for people of all ages. As a vector for youth development and civic engagement, culture is essential in promoting sustainable social and economic growth for future generations. Youth can act as a bridge between cultures and serve as key agents in promoting peace and intercultural understanding.

The Need for this project is to widen the capability and the preservation of the culture and the arts to be part of the holistic development of the youth. This proposed project is interested in the holistic development of the Sangguniang Kabataan of Mambusao, Capiz.

This proposed extension project will base its different interventions on the three-year development/devolution Plan of the Department of Interior and Local Government. The College of Education offers a Bachelor of Physical Education.
