Rationale

Every learner is encouraged to work on an alternative instructional design that uses developed instructional materials which are based on the needs of the students due to the increase cases of COVID 19 pandemic. Parents as well are compelled to involve and teach their children in various activities that challenged them to focus attention and forced them to become an independent teacher to their children. By the use of modular and home instructions parents and guardians are the primary contact person to coach their children to maintain quality education in the new normal setting. They are the one who will guide and lead their children in the teaching and learning process Unfortunately not all parents and guardians are capable of handling the multitasking work of a school teacher especially in a modular instruction due to their limited knowledge, understanding and learning skills.

One of the hilly, highly and mountainous barangay in the Municipality of Pilar with a distance of approximately seven kilometers away from the town proper is Barangay Olalo wherein the people's source of livelihood consists mainly of sugar cane, corn, coconut and other vegetable crops .The Olalo Elementary school is located adjacent to the barangay hall and is called Multigraded school because of having only two teachers who teach pupils from Kinder I to grade IV which become the adopted school of the BEED Department of Capiz State University Pilar Satellite College in the extension activity after conducting the Pagtulun-an sa Ugsaran Phase1 last 2021.The Pagtulun-an sa Ugsaran is a kind of program that includes modular tutorial instructions, parenting, psychosocial, livelihood and skills training, that help / assist parents and guardians on the learning process of their children in a limited face to face set up. Chances were given to them to acquire experience in the midst of pandemic that lead and guide their children to continue and sustain basic education. This was conducted every Friday within two grading period in semester 1 at Barangay Olalo Pilar,Capiz.

Objectives

This Project aims to:

1. bring the Pagtulun-an sa Ugsaran to the adopted School/Barangay.
2. open opportunities for those undergraduate parents and guardians that will help/assist them in their learning process.
3. provide avenue to Capsu Pilar to extend their expertise to the community.

Methodology

The Pagtulun an sa Ugasaran was conducted on the first semester school year 2022, every Friday- from September 2, December 9, 2022. The participants in the tutorial modular session were 23 pupils of Olalo Elementary School and 27 undergraduate parents and guardians in parenting, psychosocial, skills and livelihood session which was the Nito Processing and basket weaving of Barangay Olalo Pilar, Capiz. In Tutorial classes, it was participated by Olalo elementary pupils in a limited face to face set up together with the Fourth Year BEED students with the approval of IATF under the supervision of faculty from the Education Department of CapSU Pilar and in coordination with the two elementary Teachers and some barangay officials. While in parenting, psychosocial, skills and livelihood training were participated by undergraduate parents and guardians.

During the conduct of the Tutorial lesson to the pupils, parents and guardians were also given a parenting and psychosocial lesson simultaneously for four consecutive sessions to motivate and encourage them for mental, emotional and social breakthrough of Covid 19 pandemic. After the parenting and psychosocial session, the skills and livelihood training which was the nito processing and basket weaving were also conducted based on the need assessment conducted and as per requested by the beneficiaries during the phase 1 of the activity. The 40 items standardized pretest of the Department of Education was given to the pupils to evaluate their performance before the implementation of the activity.

After the limited face to face modular tutorial session for the pupils, Post test were given on the last day of the activity while parenting and psychosocial lesson for the parents, got a positive impact that led them to apply the skills and livelihood training taught by CapSU Pilar Faculty in Nito processing and basket weaving while waiting for their children outside the school premises. Thorough coaching, monitoring and assessment of their product for quality production made them sold to the community as an additional intervention and help for their means of livelihood.

Results of Intervention

A. Tutorial : Based on the results, there were significant difference on the pre test and post test performance of grade 3 and grade 4 pupils in Olalo Elementary school. There were also significant difference on the pre test and post test in the different subject areas. Result further revealed that the Pagtulun an sa Ugasaran significantly improved

the performance of the pupils in Olalo Elementary School and was conformed by the parents of the pupils.

- . The impact of the extension program on the academic performance as viewed by the parents respondents

Pamangkot: Ano ang nahimo sang Extension program nga Pagtulun-an sa Ugsaran sang CapSu Pilar dire sa inyo ? Ano ang natabo sang matapos natudluan inyo mga kabataan sang ila modyul ?

Sabat : Giniklanan 1 “ Nagapasalamat gid ako sa mga mestra kag maestro sa Capsu Pilar nga nagbulig tudlo. Gintudluan kami nga mga nanay kag ang amon mga kabataan sa ila leksyon sa modyul. Daku gid ang naimprobar sang pagtaas sang grado sang akon bata kag naganahan na siya mag eskwela pirmi.”

Question: What did the Extension program of CapSu Pilar teach you? What happened to after teaching your children their module?

Parent 1 stated “ I am thankful for the teachers of Capsu Pilar for teaching me and my child on their lessons and modules in school. My child performance in school improved a lot and is excited to come to school always”.

Pamangkot: Ano nga serbisyo ang nabulig ni Extension program- Pagtulun -an sa Ugsaran sa inyo nga mga giniklanan

Giniklanan - 2 “ Nagapasalamat gid ako sang dako sa serbisyo sang Capsu Pilar nga nagpangita gid sang sari sari nga pamaagi para mabuligan kami dre sa barangay. Ang Ila programa nga Pagtulun an sa Ugasaran nakabulig gid sang pagtaas sang grado sang bata ko. Pati man ang palangitan an namon, natudluan man nila kami sang amon himuoon sa mga bagay nga yara lang sa palibot namon kaangay sa pag-ubra sang pinggan , basket, paagi sa Nito kag kawayan nga materyal”.

Question : What services did the Extension program help with?

Parent 2 “ Stated “ I am thankful for the service rendered by Capsu Pilar that it finds different ways to help us in barangay Olalo. Their program pagtulun-an is a big help for the improvements of the grades of my child because they teaches us in our child lessons and modules. Likewise in our means of

livelihood, they taught us to make plate, baskets, nito balls by the use of Nito and bamboo as the materials.

B. Psychosocial: Parents and guardians were able to cope with the mental stress brought about by the COVID-19 pandemic.

C. Parenting : Parents and guardians were able to assess themselves the proper way of guiding their siblings in their studies and the importance as partners in teaching learning activity.

C. Skills and Livelihood : Parents were able to produce Nito plate and basket made in Bamboo and sold it in the people of the community with a total income of 12,750,000 after the 15-day training.

Lessons Learned

The BEED Department's Extension Program, Pagtutulon a sa Ugasaran, has demonstrated the adaptability and perseverance of both educators and pupils by navigating through the hurdles presented by the COVID-19 pandemic. Leveraging modular training for meaningful engagement and learning is one of the most important lessons learnt. The epidemic brought attention to the necessity for innovation, allowing pupils to engage with communities in spite of physical limitations. The importance of empathy and compassion in the face of extraordinary circumstances has been another important lesson. Through this program both pupils and teachers have not only gained the ability to modify their teaching strategies but they come to understand the new normal and the many demands and challenges of the communities they serve on a deeper level. Furthermore, when pupils /students and professors worked together importance of adaptability and creative problem-solving. This difficult time highlighted the program's dedication to social responsibility and helped to develop a generation of teachers who are not only academically strong but also capable of navigating difficult situations and making valuable contributions to society.

Recommendations:

The extension program of CapSu have to be enhanced by consistently monitoring the needs of the beneficiaries in the community so it may be addressed promptly. A comprehensive community extension package for the residents has to be crafted and carried out based on the assessed needs of the community in order to create greater impact to effect changes in the lives of the beneficiaries. To ensure effectiveness and improve the impact of the community extension program,

proper monitoring and consistent evaluation of the extension college has to be undertaken to improve and empower the lives of the residents in the community. Community Extension coordinators and deans need to attend exclusive trainings new trends in adapting new Community Extension programs to fit in the needs of the the residents in the adopted community. Future extentionist are recommended to focus on the impact of other community extension program in the different adopted communities of the university.
