Outputs and Impacts

The finish product is based on the proposed and approved design by the client or prospected costumers. Process or procedure of works is in line with artistry, color combination, masterpiece is highly considered. Along with the continues effort of the

beneficiary of the said training will also be evaluated in order to meet the demand of the client for satisfaction.

Summary/Sustainability:

Constant monitoring of the LGU and partly of the CapSU through its representative under its extension program will make the beneficiaries felt of their presence and guidance. Considering that this is the government intervention to solve the problem brought by poverty, a simple tap on the beneficiaries' shoulder whenever they did right will boost their moral. Giving them constructive criticism will they felt the challenge and giving them reward for the job well done will make them to strive more. By following the business plan this will guide to a clear and exact direction of managing the business.

As stated in the Memorandum of Understanding (MOU) that the proponent shall submit complete report (Report of Disbursement duly verified by the Implementing Auditor) to LGU within (30) days from receipt of the beneficiaries of the grant assistance from PROPONENT together with copies of Credit Notice and/or Notice of Suspension/Dis-allowance. The proponent shall also return to LGU any unused funds or savings immediately after project completion and any disallowed amount as a result of financial audit by the LGU and/or the Commission on Audit.

Monitoring shall start thirty (30) days from the release of the assistance to the beneficiaries for the duration of (6) months to (1) year. The Office of the Barangay will do the monitoring and Capiz State University Main Campus will do a follow-up as intervention. The results of monitoring will be presented and discuss to the project management team (CapSU and the Representative of the Barangay).
