

## **COMPLETED EXTENSION PROJECT**

### **UTILIZATION AND PRODUCT-DEMO OF MULTI-PROCESSOR DEVICE FOR PHOTOGRAPHIC SILK-SCREEN PRODUCTION (MDPSP) RESEARCH-EXTENSION BASED PROJECT**

Author: Dr. Warren S. Celoso

Co-Author: Engr. Gemma Angelias & Dr. Ma. Consuelo Yap, Dr. Felix Facto,  
Dr. Remar Apolinario

#### **I. RATIONALE**

As mandated by the Commission on Higher Education, the Capiz State University responded to the call for social transformation (RA 7722) through its extension program. The aim is to serve the poorest of the poor, the less privileged, the deprived, and the oppressed through livelihood skills training, values formation, and the like.

The Industrial Technology of CapSU Main promotes school-community-based extension activity and penetrates more barangays and school-based extension projects within the city of Roxas. To further disseminate information, lecture on values formation, and marketing strategy, and provide livelihood skills training which has impacts on the community.

To attain this, BIT program formulated a theme ***“Livelihood Skills Training and Research-Extension Based Demo Project”*** in collaboration with the College of Education and Graduate Program. The project is intended to equip and utilize the research-extension-based product and to conduct livelihood skills training to the marginalized group of individuals such as out-of-school youth, and least fortunate pupils/students within the city of Roxas.

The tools and equipment to be provided were determined by the Trainer's of CapSU. The fund will be released to the proponent, the Local Government Unit of the Barangay, Sangguinang Kabataan and the School Principal/Heads who will undertake and implement the livelihood project. This is also one way of encouraging, promoting social transformation, imparting livelihood skills, and participating in community services.

#### **II. OBJECTIVES OF THE STUDY:**

1. To conduct skills training in the utilization and product demo of Multi-Processor Device For Photographic Silk-Screen Production to the adopted barangay and school-based activity within the City of Roxas..
2. Evaluate the skills developed before and after the training with the utilization and product demo of a Multi-Processor Device For Photographic Silk-Screen Production with marketing strategy to the adopted barangay and school-based activity within the City of Roxas.

### III. PROJECT DESCRIPTION:

| Activities Conducted                                                                    | 2020-2021 Pandemic                                                          | 2021-2022 New Normal                                                                       | 2022-2023 Present Status                                                                                                                                  |

#### **IV. SUSTAINABILITY**

The cooperation and collaboration of LGU, Sangguniang Kabataan, Government owned Elementary and Secondary schools and the sturdy help of the CapSU important management make the extension program sustainable. The competence of the faculty involvement as a trainer and the deliberation of the dissemination of the facts is one of the key aspects of the achievement of the program. The BIT extension project mainly the competencies training in Basic T-shirt printing will retain to set up and promote the Graphic Arts of the former Capiz Institute of Technology (CIT) which turn out to be widely recognized in competency and creativity inside the province and location with the information of faculty in terms of Commercial Arts and different capabilities of their respective important area of specialization. Thus, it offers an effect that the impacts of this extension activity could be the end result of individual increase and improvement and socio-monetary popularity of the society.

#### **V. PARTNERSHIP**

The sturdy collaboration of CapSU Main Extension Office, the Admin, and the LGU Barangay Key Officials, Sangguniang Kabataan, Elementary & Secondary faculties officers will always associate to sell social transformation, offering livelihood abilities and take part within the network services.

#### **VI. THE IMPACT/RESULTS OF INTERVENTION**

The BIT extension program has impacted the outlook of the trainees/participants and the lives of the community beneficiaries.

**On the part of the trainees/participants:**

1. They were excited about the new learning and skills
2. Their creativity was unleashed
3. They learn how to use and identify techniques suited to their capability
4. Values and basic marketing strategy were inculcated in them
5. They help their family and the promotion of CapSU BIT Extension Programs

**On the part of the community beneficiaries:**

1. They were able to adapt their skills as well as how to be an Art Shop Owner and promote marketing, especially in T-shirt printing.
2. Using their own creativity they were able to enhance/improve their skills and abilities.
3. It eased their boredom and made them productive.
4. They were very grateful to CapSU BIT extension program.

**VII. LESSONS LEARNED**

The livelihood skill training introduced by the BIT extension program to the said community answered the need towards earning a living. It gave them the opportunity to be more productive and spend their time wisely by engaging in training and applying skills learned. Eventually, changed their lives and perspective.

The training conducted and the product demo resulted in a big impact on the trainees in terms of their outlook in life such as enthusiasm, self-direction, motivation, and encouragement that developed them into better persons with positivity.

The objective was attained that those who were recipients of the training were able to explore their potential with the help and sharing of expertise of the trainers. It was a happy feeling to be of service and a catalyst of change in the lives of others. It cannot be denied that there were some problems however, it was not a hindrance in attaining the objective. A well-planned activity and the support and involvement of everybody made things possible.

This type of extension program to the community assisted and gave encouragement to the different members or groups of people, to disseminate and utilize the result of the research and improve their lives.

**CONCLUSIONS**

1. The trainees/members at the moment are ready with livelihood skills.
2. They are also capable of recognizing and valuing the importance of schooling brought by way of the intervention of the BIT program in the stated college.
3. The trainees/participants do not best analyze from the trainer but they themselves use their understanding and abilities for themselves and for monetary impact; instead of buying the commercial product, they utilize the provision of their craftsmanship to create t-shirt designs and sell the painting for display and showcase inside the community.
4. The program becomes an outlet for trainees who experience psycho-emotional stress. Somehow, their attention is diverted and relieved from stress and pressure, especially during the pandemic. They feel satisfied and fulfilled when they saw their outputs.

## **VIII. RECOMMENDATIONS**

1. Venturing other possibilities to develop the skills in Basic T-shirt printing and level up the learned skills by having advanced studies and training in the field of Art which is a challenge to the LGU or concerned agency to provide such opportunity.
2. The BIT extension program supports the vision, mission, and goals of the college. Continuous support for the improvement of oneself and to assist in reaching out to the least privileged individual in the community.
3. Conduct other livelihood skills training along with t-shirt printing (light and dark transfer sublimation Digital t-shirt printing)
4. Engage in commercial t-shirt printing activities and marketing.
5. Continue researching the challenges met and possible opportunities in order to sustain the T-shirt printing industry and explore prospect which will eventually benefit the community.
