(7) Sector/Commodity Livestock , Native Chicken	(8) Discipline/Field of Specialization
(9) Rationale The Philippine native chicken is an important livestock resource. It is the common fowl found in the backyards of most rural households. It is a mixture of different breeds and believed to have descended from the domesticated red jungle fowl. Aside from being good source of high quality protein, it provides additional livelihood to about 2.5 million Filipinos (PCARRD, 2007). With its quality meat and distinct taste, the native chicken has established a niche market and is seemingly unaffected from pressures of commercial layer and broiler markets. This make native chicken production a top investment option for small and medium entrepreneurs. Darag native chickens are the indigenous strains which are located only in Western Visayas. It is known that they are descendants of the Red jungle fowl "Ilahas". They are well known for their adaptability to local agro climatic conditions, hardiness, ability to utilize farm by products, tasty meat and resistance to diseases (WESVARRDEC, 2009). Due to several studies conducted, this Darag native are very well known as alternative source of income and food for many individual. After several natural calamities like Typhoon, earthquake and the outbreak of several diseases especially African Swine Fever, many of the Capiznon had been benefited of the Native chicken dispersal program of many government agencies particularly the DA, DAR and even CapSU. Some of this beneficiaries were became successful and earned lots of many by raising their chicken taken from different agencies. However, despite of some beneficiaries success, there are some that needs help from their funding agencies to help them in their sustainable production, and marketing. Moreover, this extension project will be done, to continue helping this different native chicken beneficiaries to continue their production and make native chicken industry in the province more sustainable and have enough supply for the different hotels and restaurants.	
(9-A) Project Description	
Objectives: • Help the different native chicken growers/ raisers and beneficiaries to sustain their native chicken production • Help native chicken growers/ raisers increase their income through native chicken production. • Conduct trainings/ seminars for the raisers using different SMART technologies developed in native chicken production. • Enhance/ support native chicken raisers in the marketing of their native chicken.	
Methodology Capiz State University in partnership with different agencies, native chicken rasiers association will collaborate in the planning, project implementation, monitoring and evaluation of the activities to be conducted. The general project methodology or activities is outlined below: • Reconnaissance and Focus Group Discussion. Different native chicken growers, government agencies and CapSU team will conduct meeting regarding in this project.

- **Evaluation of Gaps and Identification of Possible S&T Interventions.** The native chicken growers will be asked on what are the problems they encounter in their native chicken production to formulate the possible interventions for their problem.
- **Capacity Building.** Activities will either be creative workshops, hands-on learning, or guided focus group discussions. Technical matters will involve demonstrations and hands on skill-building. Ultimately, the initial beneficiaries will be expected to provide capacity building and awareness to other individuals upon their reach.
- **Economic Analysis.** This can translate the outcome of the S&T interventions into economic benefits that can convince other interested individuals.
- **Policy Initiation, Development, and Advocacy.** This will help the individual growers and association make itself self-sufficient and sustainable. Policies will be implemented to make the community well-developed and compass its advocacy.
- **Sustainability Planning.** This will provide Capiznon a road map for achieving long-term goals and document strategies to continue the program, activities, and partnerships.

(14) Major Activities/Work plan

Objectives	Target Activities	YEAR 1			
		Q1	Q2	Q3	Q4
To provide sustainable Native chicken production for Capiznon native chicken growers/ Capiz Darag Growers	Training on Darag Native Chicken Production				
	Acquisition and provision of the basic needs of Darag native chickens.				
	Dispersal of Darag native chicken.				
To help the province (restaurants/ hotels) to have sustainable supply of slaughtered native chicken.	Conduct one (1) training on slaughtering and processing of the slaughtered native chicken. Assist the growers to have access of the

	markets of their products.				
To conduct financial literacy to every native chicken growers in the province.	Conduct financial literacy especially on the marketing of the native chicken of the growers.				

(15) Expected Output

EXPECTED OUTPUTS	DETAILS	TARGET
People Services	Training of native chicken growers in the province of Capiz	200
Publications	Develop/ produce Information, Education and Communication (IEC) and promotional materials	2
Patents/IP	File 2 copyrights for the developed IEC materials and videos.	2
Places and Partnerships	Forge linkages and partnerships to LGU's, DA, DAR, DTI, LGU, and other organizations.	5
Products	Sustainable slaughtered native chicken and other products	
Policy	Develop one policy inputs for the sustainable livelihood native chicken production in the province.	1
Impact to Social/ Economics	<i>Social Impact:</i> <i>Economic Impact:</i> Increase native chicken growers income	

(15) Technology Transfer Activity Design

(16) Targets Beneficiaries

- Native chicken growers
- Government Beneficiaries
- DA, DAR

(17) Personnel Requirement

Name	Role (Program,Project, Study Leader)	Field of Specialization
Dr. Maryneth B. Barrios	Study Leader	Animal Science

Percent time devoted to the Program/ Project/ Study

Program/Project Leader (in hours):

Program/Project Members (in hours):

(18) Budgetary Requirement

SOURCES OF EXPENSES	Quantity	Amount
A. <i>Personnel Services (For studies needed the Research Assistant, informant/s, guide)</i>	1 RA @ 11,068 for 12 months	132, 816.00
B. <i>Maintenance and Other Operating Expenses (MOOE)</i>		
Transportation allowance		50,000.00
Representation Expenses		50,000.00
Training Expenses		100,000.00
Supplies		30,000.00
Total		362,816.00
